Everyone Guide - Practical
Informartion and Contacts

The European Union has
highlighted the issue of
environmentally sound use of
products in the context of
Integrated Product Policy, IPP.
Accordingly, consumers should
have easy access to
understandable, relevant and
credible environmental
information. Information about
product characteristics is
available in different forms and
sources, but in many cases,
relevant environmental
information is not available on
the product itself. The study
described in this report was
initiated in order to produce

information on the state of user
instructions regarding
environmental information.
User manuals of passenger
cars and refrigerators were
focused on, examining the
advice which could diminish
the harmful environmental
effects of the use of these
products. Other studied
products included such durable
products as textiles and
furniture as well as such
consumables as cleaning
chemicals and recyclable paper
products. The study raised
many ideas about actions that
could promote the status and
'eco-development' of
instructions for use. This book
guides B2B leaders along a
step by step path to uncommon
growth through three
transformative shifts: The
Digital Selling Shift to digital
demand generation, The Digital
Customer Experience
Makeover to digital customer
engagement, The Digital
Proposition Pivot to data-
powered, digital solutions. The
Definitive Guide is informed by
the work of Fred Geyer at
Prophet, a leading digital
transformation consultancy,
and Joerg Niessing at INSEAD,
a global standard-bearer for
business education. Rich case
studies from Maersk, Michelin,
Adobe, and Air Liquide with
best practices from IBM,
Salesforce.com, Thyssenkrupp,
and scores of leading B2B
companies illustrate how

putting customers at the heart of digital transformation drives uncommon growth. Fred and Joerg map the route from customer insight to in-market implementation for each transformational shift in four steps: Where to Play - Identify top customer growth opportunities, How to Win - Build the strategy to win customer preference, What to Do - Effectively deliver the strategy, Who is Needed - Assemble the team to make it happen. The two biggest barriers to successful digital transformation, effectively using customer data and enabling employees, are addressed by outlining a clear path to navigate forward based on best practices from other leading companies. The guide has won rave reviews from B2B leaders: "This book illuminates the secret sauce of digital transformation in the B2B space" - David Aaker, renowned brand strategist and bestselling author. "A thought-provoking exploration of three crucial transformational shifts for B2B companies" - Vincent Clerc, CEO, Maersk Ocean & Logistics "This is a great guide to applying best practices to the formidable challenge of digital transformation in complex markets and supply chains." - Dr. Lars Brzoska, Chairman of the Board of Management, Jungheinrich AG. "By providing case examples and step by step assistance in determining where to play, how to win, what to do and who to win, this book fulfilled my need for inspiring and pragmatic transformation guidance" - Lindy Hood, Chief Customer

Experience Officer, Zurich Financial North America This manual gives a complete, detailed and up-to-date description of the Eurostat-OECD PPP Programme, including its organisation, the various surveys carried out by participating countries and the ways PPPs are calculated and disseminated.
