The Ends of Meter in Modern Japanese Poetry Apr 28 2021 In *The Ends of Meter in Modern Japanese Poetry*, Scott Mehl analyzes the complex response of Meiji-era Japanese poets and readers to the challenge introduced by European verse and the resulting crisis in Japanese poetry. Amidst fierce competition for literary prestige on the national and international stage, poets and critics at the time recognized that the character of Japanese poetic culture was undergoing a fundamental transformation, and the stakes were high: the future of modern Japanese verse. Mehl documents the creation of new Japanese poetic forms, tracing the first invention of Japanese free verse and its subsequent disappearance. He examines the impact of the acclaimed and reviled shintaishi, a new poetic form invented for translating European-language verse and eventually supplanted by the reintroduction of free verse as a Western import. *The Ends of Meter in Modern Japanese Poetry* draws on materials written in German, Spanish, English, and French, recreating the global poetry culture within which the most ambitious Meiji-era Japanese poets vied for position.

Shantaram Oct 03 2021 "A publishing phenomenon" Sunday Times It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured. *Shantaram* is a novel based on the life of the author, Gregory David Roberts. In 1978 Roberts was sentenced to nineteen years imprisonment as punishment for a series of robberies of building-society branches, credit unions, and shops he had committed while addicted to heroin. In July 1980 he escaped from Victoria's maximum-security prison in broad daylight, thereby becoming one of Australia's most wanted men for what turned out to be the next ten years. For most of this period he lived in Bombay. He set up a free health clinic in the slums, acted in Bollywood movies, worked for the Bombay mafia as a forger, counterfeiter, and smuggler and, as a gun-runner, resupplied a unit of mujaheddin guerrilla fighters in Afghanistan. This is the setting of *Shantaram*. Apart from having this highly unusual personal background, Greg Roberts is a very gifted writer. His book is a blend of vivid dialogue, unforgettable characters, amazing adventures, and superb evocations of Indian life. It can be read as a vast, extended thriller, as well as a superbly written meditation on the nature of good and evil. It is a compelling tale of a hunted man who had lost everything - his home, his family, and his soul - and came to find his humanity while living at the wildest edge of experience. Gregory David Roberts retired from public life in 2014 to devote time to his family and new writing projects. *The Mountain Shadow*, sequel to *Shantaram*, is available now. PRAISE FOR SHANTARAM "A literary masterpiece ... at once erudite and intimate, reflective and funny ... it has the grit and pace of a thriller" Daily Telegraph "Powerful and original ... a remarkable achievement" Sunday Telegraph "Extraordinarily vivid ... a gigantic, jaw-dropping, grittily authentic saga" Daily Mail "At once a high-kicking, eye-gouging adventure, a love saga and a savage yet tenderly lyrical fugitive vision." Time Out Fans of Vikram Seth, John Irving and David Mitchell will love *Shantaram*. *Camera Trapping* Feb 19 2023 Camera trapping in wildlife management and research is a growing global phenomenon. The technology is advancing very quickly, providing unique opportunities for collecting new biological knowledge. In order for fellow camera trap researchers and managers to share their knowledge and experience, the First International Camera Trapping Colloquium in Wildlife Management and Research was held in Sydney, Australia. Camera Trapping brings together papers from a selection of the presentations at the colloquium and provides a benchmark of the international developments and uses of

camera traps for monitoring wildlife for research and management. Four major themes are presented: case studies demonstrating camera trapping for monitoring; the constraints and pitfalls of camera technologies; design standards and protocols for camera trapping surveys; and the identification, management and analyses of the myriad images that derive from camera trapping studies. The final chapter provides future directions for research using camera traps. Remarkable photographs are included, showing interesting, enlightening and entertaining images of animals 'doing their thing'.

Rizal wrote of his consequent persecution by the church: "My book made a lot of noise; everywhere, I am asked about it. They wanted to anathematize me ['to excommunicate me'] because of it ... I am considered a German spy, an agent of Bismarck, they say I am a Protestant, a freemason, a sorcerer, a damned soul and evil. It is whispered that I want to draw plans, that I have a foreign passport and that I wander through the streets by night ..."
