**100 film d'oggi. Il cinema negli anni 2011-2016** Mar 28 2021 Il libro raccoglie 100 schede sui film distribuiti nel mercato italiano dal settembre 2011 al settembre 2016. La maggior parte dei titoli sono italiani, statunitensi e francesi, ma si è cercato di dare spazio anche a

produzioni provenienti da paesi di solito poco presenti nel circuito delle sale italiane (tra gli altri, Germania, Croazia, Bulgaria, Russia, Iran, Cina, Australia). La lettura di queste pagine può essere un'occasione per scoprire titoli magari sfuggiti (o ignorati) al momento dell'uscita, e più in generale per ragionare, attraverso il cinema, su tanti fenomeni della nostra epoca, nella consapevolezza che il discorso su un film finisce sempre per riflettere anche i tempi e il contesto mutevole della vita di ognuno.

**I Santi Protettori** Sep 02 2021 Correva grossomodo il mese di ottobre del 2021 quando, dinanzi a una tazza di caffè e discutendo sui culti religiosi venerati nella chiesa parrocchiale di Carosino, i due autori pensarono di scrivere qualcosa a riguardo. Nacque allora una spontanea quanto interessante collaborazione tra loro, suggellata da altri incontri successivi, che alla fine hanno portato a concretizzare nei fatti questo loro progetto iniziale.

*Giubileo giubilei* Jun 11 2022 Questo libro coglie l'occasione dell'evento giubilare per cercare di ricostruire la cultura di giubileo e pellegrinaggi. Esso mira a comprendere cosa siano stati concretamente pellegrinaggi e giubileo nella quotidianità degli itinerari, degli ospizi, dei riti che i pellegrini seguivano, ma anche che cosa siano stati nella realtà più sottile ed ambigua delle credenze legate ai santi, alle immagini, alle reliquie. La ricerca mette in luce le specificità che contraddistinguono il giubileo romano nel periodo del suo massimo fulgore, ma il saggio getta anche uno sguardo sugli "altri" pellegrinaggi, quello ebraico, quello musulmano, sui loro riti, e sulle immagini che più possono mostrarci diversità e somiglianze

*Rome, Ravenna, and Venice, 750-1000* Mar 08 2022 The richest and most politically complex regions in Italy in the earliest middle ages were the Byzantine sections of the peninsula, thanks to their links with the most coherent early medieval state, the Byzantine empire. This comparative study of the histories of Rome, Ravenna, and Venice examines their common Byzantine past, since all three escaped incorporation into the Lombard kingdom in the late 7th and early 8th centuries. By 750, however, Rome and Ravenna's political links with the Byzantine Empire had been irrevocably severed. Thus, did these cities remain socially and culturally heirs of Byzantium? How did their political structures, social organisation, material culture, and identities change? Did they become part of the Western political and ideological framework of Italy? This study identifies and analyses the ways in which each of these cities preserved the structures of the Late Antique social and cultural world; or in which they adapted each and every element available to them to their own needs, at various times and in various ways, to create a new identity based partly on their Roman heritage and partly on their growing integration with the rest of medieval Italy. It tells a story which encompasses the main contemporary narratives, documentary evidence, recent archaeological discoveries, and discussions on art history; it follows the markers of status and identity through titles, names, ethnic groups, liturgy and ritual, foundation myths, representations, symbols, and topographies of power to shed light on a relatively little known area of early medieval Italian history.

*The Holy Spirit, the Church, and Pneumatological Renewal* Dec 13 2019 This book applies a novel method of critical reading of Lumen Gentium and Mystici Corporis in combination with redaction-historical analysis to channel the Second Vatican Council's modest attempts at pneumatological renewal into a more open and receptive faith practice and theology.

*A Treatise of Legal Philosophy and General Jurisprudence* Sep 21 2020 A Treatise of Legal Philosophy and General Jurisprudence is the first-ever multivolume treatment of the issues in legal philosophy and general jurisprudence, from both a theoretical and a historical perspective. The work is aimed at jurists as well as legal and practical philosophers. Edited by the renowned theorist Enrico Pattaro and his team, this book is a classical reference work that would be of great

interest to legal and practical philosophers as well as to jurists and legal scholar at all levels. The work is divided in two parts. The theoretical part (published in 2005), consisting of five volumes, covers the main topics of the contemporary debate; the historical part, consisting of six volumes (Volumes 6-8 published in 2007; Volumes 9 and 10, published in 2009; Volume 11 published in 2011 and Volume 12 forthcoming in 2016), accounts for the development of legal thought from ancient Greek times through the twentieth century. Volume 12 Legal Philosophy in the Twentieth Century: The Civil Law World Volume 12 of A Treatise of Legal Philosophy and General Jurisprudence, titled Legal Philosophy in the Twentieth Century: The Civil-Law World, functions as a complement to Gerald Postema's volume 11 (titled Legal Philosophy in the Twentieth Century: The Common Law World), and it offers the first comprehensive account of the complex development that legal philosophy has undergone in continental Europe and Latin America since 1900. In this volume, leading international scholars from the different language areas making up the civil-law world give an account of the way legal philosophy has evolved in these areas in the 20th century, the outcome being an overall mosaic of civil-law legal philosophy in this arc of time. Further, specialists in the field describe the development that legal philosophy has undergone in the 20th century by focusing on three of its main subjects—namely, legal positivism, natural-law theory, and the theory of legal reasoning—and discussing the different conceptions that have been put forward under these labels. The layout of the volume is meant to frame historical analysis with a view to the contemporary theoretical debate, thus completing the Treatise in keeping with its overall methodological aim, namely, that of combining history and theory as a necessary means by which to provide a comprehensive account of jurisprudential thinking.

*The Comparative Perspective* Nov 11 2019 This book - the third and concluding volume of the series on "Submerged Literature" in ancient Greek culture - expands the approach presented in the previous volumes to a comparative perspective. The case studies range from Qumran texts to Arabic-Islamic literature, from ancient Rome to gnostic texts, with a particular emphasis on anthropological themes and methods, aiming to offer new insights for both classical and comparative studies.

**Thomas Hobbes and the Natural Law Tradition** Aug 13 2022 Pre-eminent among European political philosophers, Norberto Bobbio has throughout his career turned to the political theory of Thomas Hobbes. Gathered here for the first time are the most important of his essays which together provide both a valuable introduction to Hobbes's thought and a fresh understanding of Hobbes's place in the theory of modern politics. Tracing Hobbes's work through *De Cive* and *Leviathan*, Bobbio identifies the philosopher's relation to the tradition of natural law. That Hobbes must now be understood in both this tradition as well as in the seemingly contradictory positivist tradition becomes clear for the first time in Bobbio's account. Bobbio also demonstrates that Hobbes cannot be easily labelled "liberal" or "totalitarian"; in Bobbio's provocative analysis of Hobbes's justification

of the state, Hobbes emerges as a true conservative. Though his primary concern is to reconstruct the inner logic of Hobbes's thought, Bobbio is also attentive to the philosopher's biography and weaves into his analysis details of Hobbes's life and world—his exile in France, his relation with the Mersenne circle, his disputes with Anglican bishops, and accusations of heresy leveled against him. The result is a revealing, thoroughly new portrait of the first theorist of the modern state.

*Forbidden Prayer* Nov 04 2021 This book delineates the attempt, carried out by the Congregations of the Inquisition and the Index during the sixteenth and early seventeenth century, to purge various devotional texts in the Italian vernacular of heterodox beliefs and superstitious elements, while imposing a rigid uniformity in liturgical and devotional practices. The first part of the book is focused on Rome's anxious activity toward the infiltration of Protestant ideas in vernacular treatises on prayer meant for mass consumption. It next explores how, only in the second half of the sixteenth century, once Rome's main preoccupation toward Protestant expansion had subsided, the Church could begin thinking about a move from a rejection of any consideration of the merits of interior prayer to a recovery and acceptance of mental prayer. The final section is dedicated to the primary objective of the Church's actions in purging superstitious practices which was not simply the renewal of the spiritual life of the faithful, but also the control of the religious and social life of many faithful who were uneducated. Based on a careful examination of the archival records of the two Roman dicasteri in question, many of which have only been accessible to scholars since 1998, as well as a close reading of the many of suspect devotional texts themselves, this book offers a fascinating contribution towards a fuller appreciation of the complex landscape that characterized the spiritual realities of early modern Italy.
