H. Beam Piper Jan 26 2023 H. Beam Piper is one of science fiction's most enigmatic writers. In 1946 Piper appeared seemingly from out of nowhere, already at the top of his form. He published a number of memorable short stories in the premier science fiction magazine of the time, Astounding Science Fiction, under legendary editor John W. Campbell. Piper quickly became friends with many of the top writers of the day, including Lester Del Rey, Fletcher Pratt, Robert Heinlein and L. Sprague de Camp. Piper also successfully made the turn from promising short story writer to major novelist, authoring Four-Day Planet, Cosmic Computer, Lord Kalvan of Otherwhen and Little Fuzzy, which was nominated for a Hugo award. Even those who counted Piper among their

friends knew very little about the man or his life as a railroad yard bull in Altoona, Pennsylvania. This biography illuminates H. Beam Piper, both the writer and the man, and answers lingering questions about his death. Appendices include a number of Piper's personal papers, a complete bibliography of Piper's works, and an essay on Piper's Terro-Human Future History series.

Watching M*A*S*H, Watching America Oct 23 2022 It has been said that M*A*S*H was a show set in the 1950s which reflected the shifting values of the 1970s and early 1980s. Hawkeye Pierce, Radar O'Reilly, Trapper John McIntyre, Sherman Potter, Margaret (Hot Lips) Houlihan, B.J. Hunnicutt, Frank Burns, Charles Emerson Winchester, Max Klinger--these and the many other characters who populated the MASH 4077 used the Korean War as a backdrop to comment on many of the social issues of their day. Using a unique blend of comedy and drama, the show's first three seasons (1972-1975) focused on the anti-Vietnam War sentiment that consumed much of America. As Vietnam ended, M*A*S*H moved on to concentrate on other contemporary issues--the women's movement, the rise of the religious right in American politics, the new narcissism that marked the early 1980s, the heightened awareness of underage or excessive alcohol use, and the increased emphasis on family in American life. How the series presented these issues and its success in doing so are the subjects of this critical study. An episode listing--brief plot outline, casts and credits, air dates, and titles--is also provided.

Peptide Solvation and H-bonds Dec 25 2022 Volume 72, Peptide Solvation and H-bonds, addresses the role of peptide backbone solvation in the energetics of protein folding. Particular attention is focused on modeling and computation. This volume will be of particular interest to biophysicists and structural biologists. Challenges the longstanding and basic assumptions of structural biology Discusses how to solve the problem of protein structure prediction Addresses the quantitation of the energetics of folding

Clarence H. White and His World Aug 21 2022 Restoring a gifted art photographer to his place in the American canon and, in the process, reshaping and expanding our understanding of early 20th-century American photography Clarence H. White (1871-1925) was one of the most influential art photographers and teachers of the early 20th century and a founding member of the Photo-Secession. This beautiful publication offers a new

appraisal of White's contributions, including his groundbreaking aesthetic experiments, his commitment to the ideals of American socialism, and his embrace of the expanding fields of photographic book and fashion illustration, celebrity portraiture, and advertising. Based on extensive archival research, the book challenges the idea of an abrupt rupture between prewar, soft-focus idealizing photography and postwar "modernism" to paint a more nuanced picture of American culture in the Progressive era. Clarence H. White and His World begins with the artist's early work in Ohio, which shares with the nascent Arts and Crafts movement the advocacy of hand production, closeness to nature, and the simple life. White's involvement with the Photo-Secession and his move to New York in 1906 mark a shift in his production, as it grew to encompass commercial portraiture and an increasing commitment to teaching, which ultimately led him to establish the first institutions in America to combine instruction in both technical and aesthetic aspects of photography. The book also incorporates new formal and scientific analysis of White's work and techniques, a complete exhibition record, and many unpublished illustrations of the moody outdoor scenes and quiet images of domestic life for which he was revered.

The Complete Guide to Islamic Prayer (Sal H) Feb 27 2023 Salah is the second pillar of the Islamic faith, the foundations of a Muslim's life, and the key to Paradise. A subject so important must be treated with care and attention and this book aims to provide the reader with a comprehensive, detailed, and accessible guide to this important topic. In this ground-breaking book, all elements of Salāh are expounded chapter by chapter, with useful translations and transliterations of original Arabic terms and phrases. Beginning with the history of the prayer, we progress through an analysis of the types of Salāh, its spiritual and physical benefits, and a unique step-by-step guide on learning to pray for those new to the practice. With this book, there should no longer be any confusion or lack of knowledge regarding Salāh. It is hoped that this book, written with the intention of easing the performance of the five daily prayers, will help readers understand the beauty of this ritual and turn it into an enjoyable daily experience, such that it is spiritually enriching and accepted in the eyes of Almighty God.
