New Pathways in Pilgrimage Studies May 25 2020 Although there has been a massive increase in the volume of pilgrimage research and publications, traditional Anglophone scholarship has been dominated by research in Western Europe and North America. In their previous edited volume, *International Perspectives on Pilgrimage Studies* (Routledge, 2015), Albera and Eade sought to expand the theoretical, disciplinary and geographical perspectives of Anglophone pilgrimage studies. This new collection of essays builds on this earlier work by moving away from Eurasia and focusing on areas of the world where non-Christian pilgrimages abound. Individual chapters examine the practice of ziyarat in the Maghreb and South Asia, Hindu pilgrimage in India and different pilgrimage traditions across Malaysia and China before turning towards the Pacific islands, Australia, South Africa and Latin America, where Christian pilgrimages co-exist and sometimes interweave with indigenous traditions. This book also demonstrates the impact of political and economic processes on religious pilgrimages and discusses the important development of secular pilgrimage and tourism where relevant. Highly interdisciplinary, international, and innovative in its approach, *New Pathways in Pilgrimage Studies: Global Perspectives* will be of interest to those working in religious studies, pilgrimage studies, anthropology, cultural geography and folklore studies.

?b-e ?ay?t Jul 07 2021 This is a brilliant translation of the Aab-e-hayat (Water of Life), the last classical anthology of Urdu poetry. First published in 1880, it has exerted enormous influence over modern Urdu literary history.

The Making of the Awadh Culture Jan 13 2022 This book makes an extensive study of the art and culture of Awadh during the Nawabi period (c. 1722-1856), with a focus on the city of Lucknow. The work takes up evidence available in a variety of primary and secondary sources, especially in the Persian and Urdu languages, in its study of visuals and artefacts, as well as performance traditions and craft techniques which are derived from this period. Highlighting the literary milieu of the period, and the developments in the realm of music, painting, architecture and industrial arts, this volume also explores how some of the arts and crafts assumed considerable European colour, and demonstrates how the ethos of the syncretic Indo-Persian culture, the renowned ganga-jamuni tahzib, remained intact.

Negotiating Languages May 17 2022 Prior to the nineteenth century, South Asian dictionaries, glossaries, and vocabularies reflected a hierarchical vision of nature and human society. By the turn of the twentieth century, the modern dictionary had democratized and politicized language. Compiled "scientifically" through "historical principles," the modern dictionary became a concrete symbol of a nation's arrival on the world stage. Following this phenomenon from the late seventeenth century to the present, Negotiating Languages casts lexicographers as key figures in the political realignment of South Asia under British rule and in the years after independence. Their dictionaries document how a single, mutually intelligible language evolved into two competing registers—Urdu and Hindi—and became associated with contrasting religious and nationalist goals. Each chapter in this volume focuses on a key lexicographical work and its fateful political consequences. Recovering texts by overlooked and even denigrated authors, Negotiating Languages provides insight into the forces that turned intimate speech into a potent nationalist politics, intensifying the passions that partitioned the Indian subcontinent.

Reliving Karbala : Martyrdom in South Asian Memory Aug 28 2020 In 680 C.E., a small band of the Prophet Muhammads family and their followers, led by his grandson, Husain, rose up in a rebellion against the ruling caliph, Yazid. The family and its supporters, hopelessly outnumbered, were massacred at Karbala, in modern-day Iraq. The story of Karbala is the cornerstone of institutionalized devotion and mourning for millions of Shii Muslims. Apart from its appeal to the Shii community, invocations of Karbala have also come to govern mystical and reformist discourses in the larger Muslim world. Indeed,

Karbala even serves as the archetypal resistance and devotional symbol for many non-Muslims. Until now, though, little scholarly attention has been given to the widespread and varied employment of the Karbala event. In *Reliving Karbala*, Syed Akbar Hyder examines the myriad ways that the Karbala symbol has provided inspiration in South Asia, home to the world's largest Muslim population. Rather than a unified reading of Islam, Hyder reveals multiple, sometimes conflicting, understandings of the meaning of Islamic religious symbols like Karbala. He ventures beyond traditional, scriptural interpretations to discuss the ways in which millions of very human adherents express and practice their beliefs. By using a panoramic array of sources, including musical performances, interviews, nationalist drama, and other literary forms, Hyder traces the evolution of this story from its earliest historical origins to the beginning of the twenty-first century. Today, Karbala serves as a celebration of martyrdom, a source of personal and communal identity, and even a tool for political protest and struggle. Hyder explores how issues related to gender, genre, popular culture, class, and migrancy bear on the cultivation of religious symbols. He assesses the manner in which religious language and identities are negotiated across contexts and continents. At a time when words like martyrdom, jihad, and Shiism are being used and misused for political reasons, this book provides much-needed scholarly redress. Through his multifaceted examination of this seminal event in Islamic history, Hyder offers an original, complex, and nuanced view of religious symbols.

India's Freedom Struggle and the Urdu Poetry Jan 25 2023 Poetry, mainly Urdu poetry, played a very significant role in India's freedom struggle. This book explores the poetic contributions going back centuries of colonial rule, which became songs of freedom and captured both the poignancy and fervor of revolution, protest, and hope. Urdu became one of the essential languages in colonial India, used by both political leaders and many young revolutionaries in speeches and writings as slogans for freedom and a call to action. Poets such as Josh Malihabadi, Firaq Gorakhpuri, Sahir, Makhdoom, Kaifi Azmi, Majaz, Majrooh, and Faiz Ahmad Faiz wrote highly patriotic poetry which was used not only to inspire and help mobilize people but also to offer criticism of existing socio-cultural practices in India and promote reform and equality. This work – a creative and selective translation of the book *Hindustan Ki Tahriik-e Aazadi aur Urdu Shaa'yiri* by Professor Gopi Chand Narang – includes English translations of poems from rare historical manuscripts as well as banned and witnessed poetry confiscated by the British. It looks at key events in India's struggle for freedom through the prism of literature, language, poetry, and culture while also delving into the lives of poets who became the voice of their generation. This book is an essential read for students and researchers of colonial and postcolonial literature, cultural studies, comparative studies, history, and South Asian literature and culture.

Understanding Karbala Sep 09 2021 "Surely, whoever follows me will be martyred. Whoever does not follow me will not witness the Triumph." These were some of Imam Hussain's last words before leaving Medina. He set out from Medina towards Kufa, and ultimately to Karbala, knowing the great sacrifice that he would make. He foretold of his fate and knew that his movement will only result in a crushing military defeat. But he also knew the great value - the great triumph - that was to be gained. He set out not to achieve any immediate results or short term goals. Rather, his movement was meant to build an eternal legacy and achieve lasting reform in the nation of his grandfather. But what and how did Imam Hussain reform the nation of his grandfather? Why did Imam Hussain sacrifice as he did? What was the context in which this sacrifice and tragedy took place? What was the role of the remainder of the Household of the Prophet before and after the tragedy? What was Imam Hussain's goal and how did he triumph despite the grand massacre? Understanding Karbala is an in depth historical and theological analysis that attempts to answer these far-reaching questions about Imam Hussain's movement. Based on the work of Grand Ayatollah Muhammad Saeed al-Hakeem, the book looks at the driving factors behind Imam Hussain's journey. It sets the theological framework for studying the movement of the Household of Prophet Muhammad, and then begins to analyze their choices as seen in their words and actions, as well as the historical context in which they operated. The book also looks at the great triumph Imam Hussain aimed for and was able to achieve through his movement. By studying the short and long term effects of the grand tragedy, the book sheds light on Imam Hussain's objectives and achievements, and how the remainder of the Household of the Prophet worked to preserve that triumph.

Handbook of Religion and the Asian City Apr 23 2020 "Handbook of Religion and the Asian City highlights the creative and innovative role of urban aspirations in Asian world cities. It points out that urban politics and governance are often about religious boundaries and processions--in short, that public religion is politics. The essays show how projects of secularism come up against projects and ambitions of a religious nature, a particular form of contestation that takes the city as its public arena. Asian cities are sites of speculation, not only for those who invest in real estate but also for those who look for housing, for employment, and for salvation. In its potential and actual mobility, the sacred creates social space in which they all can meet. Handbook of Religion and the Asian City makes the comparative case that one cannot study the historical patterns of urbanization in Asia without paying attention to the role of religion in urban aspirations"--Provided by publisher.
