Playthings in Early Modernity Aug 13 2022 An innovative volume of fifteen interdisciplinary essays at the nexus of material culture, performance studies, and game theory, Playthings in Early Modernity emphasizes the rules of the game(s) as well as the breaking of those rules. Thus, the titular "plaything" is understood as both an object and a person, and play, in the early modern world, is treated not merely as a pastime, a leisurely pursuit, but as a pivotal part of daily life, a strategic psychosocial endeavor.

Bernini Jan 06 2022 While Baroque artist Gian Lorenzo Bernini (1598-1680) is celebrated as a sculptor, architect, and painter, it is less known that he also was a playwright, scenographer, actor, and director. The Baroque period saw the rise of opera and ballet, as well as increasingly elaborate scenographic technologies for court and religious theatre. Bernini drew from this lexicon of theatrical effects, deploying light, movement, and the porous boundary between fictive and physical space to forge a language of Baroque illusion for both his scenographies and his sculptural ensembles. "Bernini: Art as Theatre" investigates the different types of cultural space for the staging of his art, from court settings to public squares and church interiors. Drawing parallels between the visual and theatrical arts, and highlighting the dramatic amplification of religious art in the period, this provocative study provides a model that can be extended beyond Bernini to enable us to reconsider 17th-century visual culture as a whole.

Renaissance Fun Jan 18 2023 Renaissance Fun is about the technology of Renaissance entertainments in stage machinery and theatrical special effects; in gardens and fountains; and in the automata and self-playing musical instruments that were installed in garden grottoes. How did the machines behind these shows work? How exactly were chariots filled with singers let down onto the stage? How were flaming dragons made to fly across the sky? How were seas created on stage? How did mechanical birds imitate real birdsong? What was 'artificial music', three centuries before Edison and the phonograph? How could pipe organs be driven and made to play themselves by waterpower alone? And who were the architects, engineers, and craftsmen who created these wonders? All these questions are answered. At the end of the book we visit the lost 'garden of marvels' at Pratolino with its many grottoes, automata and water jokes; and we attend the performance of Mercury and Mars in Parma in 1628, with its spectacular stage effects and its music by Claudio Monteverdi – one of the places where opera was born. Renaissance Fun is offered as an entertainment in itself. But behind the show is a more serious scholarly argument, centred on the enormous influence of two ancient writers on these subjects, Vitruvius and Hero. Vitruvius's Ten Books on Architecture were widely studied by Renaissance theatre designers. Hero of Alexandria wrote the Pneumatics, a collection of designs for surprising and entertaining devices that were the models for sixteenth and seventeenth century automata. A second book by Hero On Automata-Making – much less well known, then and now – describes two miniature theatres that presented plays without human intervention. One of these, it is argued, provided the model for the type of proscenium theatre introduced from the mid-sixteenth century, the generic design which is still built today. As the influence of Vitruvius waned, the influence of Hero grew.

The Blue Flowers Dec 17 2022 Only a pataphysician nurtured lovingly on surrealist excess could have come up with The Blue Flowers, Queneau's 1964 novel. At his death in 1976, Raymond Queneau was one of France's most

eminent men of letters—novelist, poet, essayist, editor, scientist, mathematician, and, more to the point, pataphysician. And only a pataphysician nurtured lovingly on surrealist excess could have come up with *The Blue Flowers*, Queneau's 1964 novel, now reissued as a New Directions Paperbook. To a pataphysician all things are equal, there is no improvement or progress in the human condition, and a "message" is an invention of the benighted reader, certainly not the author or his perplexing creations—the sweet, fennel-drinking Cidrolin and the rampaging Duke d'Auge. History is mostly what the duke rampages through—700 years of it at 175-year clips. He refuses to crusade, clobbers his king with the "in" toy of 1439—the cannon—dabbles in alchemy, and decides that those musty caves down at Altamira need a bit of sprucing up. Meanwhile, Cidrolin in the 1960s lolls on his barge moored along the Seine, sips essence of fennel, and ineffectually tries to catch the graffitist who nightly defiles his fence. But mostly he naps. Is it just a coincidence that the duke appears only when Cidrolin is dozing? And vice versa? In the tradition of Villon and Céline, Queneau attempted to bring the language of the French streets into common literary usage, and his mad word-plays, bad puns, bawdy jokes, and anachronistic wackiness have been kept amazingly and glitteringly intact by the incomparable translator Barbara Wright.

Europe and Empire Jan 14 2020 The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of "islands" both distinct and connected. Though drawing on philosophers of Europe's past, Cacciari calls not to resist Europe's sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today's politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

Images of Colonialism and Decolonisation in the Italian Media Mar 08 2022 The twentieth century saw a proliferation of media discourses on colonialism and, later, decolonisation. Newspapers, periodicals, films, radio and TV broadcasts contributed to the construction of the image of the African "Other" across the colonial world. In recent years, a growing body of literature has explored the role of these media in many colonial societies. As regards the Italian context, however, although several works have been published about the links between colonial culture and national identity, none have addressed the specific role of the media and their impact on collective memory (or lack thereof). This book fills that gap, providing a review of images and themes that have surfaced and resurfaced over time. The volume is divided into two sections, each organised around an underlying theme: while the first deals with visual memory and images from the cinema, radio, television and new media, the second addresses the role of the printed press, graphic novels and comics, photography and trading cards.

I romanzi arturiani in Italia Oct 03 2021 Tra la seconda metà del Duecento e la fine del Trecento, la diffusione dei romanzi arturiani nella penisola italiana dà vita a un fenomeno culturale di lunga durata e dalle molteplici sfaccettature. Le storie della Tavola Rotonda catturano l'interesse di categorie di pubblico disparate, dai lettori delle Repubbliche marinare toscane e liguri ai sovrani angioini, fino agli esponenti dei regimi signorili, che ne fanno l'oggetto di trascrizioni, traduzioni, compilazioni, elaborazioni originali. In Italia, il nutrito numero di manoscritti arturiani copiati e miniati e la varietà di soluzioni testuali e figurative adottate dai vari codici testimoniano quanto il fenomeno sia stato vivace e trasversale. Questo libro, tramite lo studio dell'interazione tra contenuti testuali, corredi illustrativi e dinamiche di ricezione, mette in luce il ruolo centrale del mito arturiano e delle sue tante "appropriazioni" nei processi di costruzione identitaria e nelle politiche culturali dell'Italia dei comuni e delle corti.

Practice and Theory in the Italian Renaissance Workshop Mar 16 2020 Verrocchio worked in an extraordinarily wide array of media and used unusual practices of making to express ideas.

The Incurrigible Optimists Club Jun 30 2021 The Incurrigible Optimists Club is a huge, exhilarating whirlwind of first love, radical art, colonial war, progressive politics, Chuck Berry and chain-smoking intellectuals. Paris, 1959. As dusk settles over the immigrant quarter, 12-year-old Michel Marini - amateur photographer and compulsive reader - is drawn to the hum of the local bistro. From his usual position at the football table, he has a vantage point on a grown-up world - of rock 'n' roll and of the Algerian War. But as the sun sinks and the plastic players spin, Michel's concentration is not on the game, but on the huddle of men gathered in the shadows of a back room... Past the bar, behind a partly drawn curtain, a group of eastern European men gather, where under a cirrus of smoke and over the squares of chess boards, they tell of their lives before France - of lovers and wives, children and ambitions, all exiled behind the Iron Curtain. Listening to this band of survivors and raconteurs, Michel is introduced to a world beyond the boundaries of his childhood experience, a world of men made formidable in the face of history, ideas and politics: the world of the Incurrigible Optimists Club.
