"The first and most important task for the jazz pianist is to produce chords. Jazz is a harmonically-based music ... This book will not emphasize the art of improvisation ... Rhythm is important too, but it is best learned by imitation and transcriptions ... chord progressions of tunes used in jazz are nearly always given in chord symbols, which the keyboard player is expected to decipher and arrange into an attractive chord

voicing. As a new symbol will appear about every two to eight beats ... the pianist has to develop quick responses in order to find and play each chord within its assigned duration ..."--Introduction

The most highly-acclaimed jazz theory book ever published! Over 500 pages of comprehensive, but easy to understand text covering every aspect of how jazz is constructed---chord construction, II-V-I progressions, scale theory, chord/scale relationships, the blues, reharmonization, and much more. A required text in universities world-wide, translated into five languages, endorsed by Jamey Aebersold, James Moody, Dave Liebman, etc. Dozens upon dozens of "runs" and "fills" professional pianists use to add style to their performances. Swing and society runs, blues runs, jazzy bebop runs and contemporary runs, each presented in three different keys to apply to different situations. Many are demonstrated on the enclosed CD in special note-by-note slow versions and at full tempo. A new book from the man who has set the standard for jazz and improvisation learning materials.
