In a buoyant story filled with ewe-morous puns, a multicolored sheep who loves Christmas inspires a seasonal ritual. There are two things everyone knows about Hillary the sheep. One is that, unlike her typically hued friends, Hillary's wool is all the colors of the rainbow. The other is that she adores everything about Christmas, especially Santa. So when word gets out that Mr. Claus is traveling across Ireland seeking the perfect sheep's wool for a sweater to keep his belly warm, Hillary's head begins to spin. Could her wool-dest dreams be about to come true? Featuring a news-loving starling named Didya, a jelly-bean-obsessed farmer, and a choir of Elvish Presley-singing elves, this sweetly comical tribute to the season will find its place among kid-pleasing holiday traditions. Already a bestseller in Ireland, it offers a welcome humorous spin on the holidays and a strong female protagonist. The Cost of Our Clothes -- The

Fibershed Movement -- Soil-to-Soil Clothing and the Carbon Cycle -- The False Solution of Synthetic Biology -- Implementing the Vision with Plant-Based Fibers -- Implementing the Vision with Animal Fibers and Mills -- Expanding the Fibershed Model -- A Future Based in Truth. In 2010 the authors appeared live on the Martha Stewart Show, publicizing their first book *Pet Heaven*. Countless magazine articles, the most productive in USA being a piece in *People Magazine*, years ago about our sheep sweater worn by Princess Diana. Farmer Brown shears his

sheep and has their wool made into yarn, but after they beg to have it back he knits the yarn into sweaters for them. Silly antics, toe-tapping verse, a clever solution, and some mighty determined sheep will have young readers clamoring for this story again and again. Full-color illustrations. "12 projects by Ysolda and friends inspired by the Rhinebeck Sheep and Wool Festival. Ysolda Teague brings together eleven designer friends ... to share the sweaters they would wear to Rhinebeck, the site of the New York State Sheep and Wool Festival"--Page 4 of cover. "Orenstein is such a breezy, funny writer, it's easy to forget she's an important thinker too."--People In this lively, funny memoir, Peggy Orenstein sets out to make a sweater from scratch--shearing, spinning, dyeing wool--and in the process discovers how we find our deepest selves through craft. Orenstein spins a yarn that will appeal to everyone. The COVID pandemic propelled many people to change their lives in ways large and small. Some adopted puppies. Others stress-baked. Peggy Orenstein, a lifelong knitter, went just a little further. To keep herself engaged and cope with a series of seismic shifts in family life, she set out to make a garment from the ground up: learning to shear sheep, spin and dye yarn, then knitting herself a sweater. Orenstein hoped the project would help her process not just wool but her grief over the recent death of her mother and the decline of her dad, the impending departure of her college-bound

daughter, and other thorny issues of aging as a woman in a culture that by turns ignores and disdains them. What she didn't expect was a journey into some of the major issues of our time: climate anxiety, racial justice, women's rights, the impact of technology, sustainability, and, ultimately, the meaning of home. With her wry voice, sharp intelligence, and exuberant honesty, Orenstein shares her year-long journey as daughter, wife, mother, writer, and maker—and teaches us all something about creativity and connection. For fans of *Sophie's Squash* and other super-silly picture books, here is the endearing story of a man named Silli who tries to tame the wind in ridiculous ways. Silli lives in the middle of a meadow, in the open air. One morning, a gust of wind pays a visit--brrrrr! What if the wind comes to stay? If only Silli could find some sheep, he'd have wool to knit a sweater to keep him warm. Luckily, he spots five large "sheep" up on a hill--perfect! It's just too bad they're resistant to herding and their wool is incredibly hard. But when Silli leans against them, they block the wind and keep him warm. . . . Perhaps he can build a shelter made of sheep? And so he resourcefully arranges his sturdy sheep (which are actually sheep-shaped rocks) into a little hut, and is finally warm and dry. This charming story--crafted in the tradition of folkloric characters who are well-meaning, likeable, and also a bit ridiculous--is sure to have a ton of kid appeal. For use in schools and libraries

Follow Irene Waggener's journey into the High Atlas Mountains of Morocco to learn about a knitting tradition that stretches back in time through generations to the very origins of the craft. In this

collection of essays and patterns, Irene provides a glimpse of life in a High Atlas village where knitting once played a key role in surviving harsh, snowy winters. The knitting patterns in this book include traditional designs by shepherds who want to share their knowledge with other knitters and future generations. The patterns are presented against the backdrop of Irene's essays, providing the cultural and environmental context in which knitting was practiced in the High Atlas. In addition, Irene's research takes the reader backwards in time as she examines the history of knitting in Morocco and North Africa. Through historical accounts, linguistic clues, and museum artifacts - some of which have not been available to the general public until now - Irene presents a picture of early knitting and how it may have developed in North Africa. Her research is accompanied by knitting patterns inspired by historical sources, bringing to life once again the skills of early North African knitters. *Sheep to Sweater* is a fun book that explores how a sweater came to be. Beginning readers will discover how things change and grow with large photos and short, simple sentences. "Thiessen has done her research, and talked to people who truly have insight into the process of making both yarn and clothing."

-Modern Daily Knitting Like the "slow food" movement, *Slow Knitting* encourages knitters to step back, pare down, and celebrate the craftsmanship of their work. In five chapters

centered around the tenets of slow knitting—sourcing carefully, making thoughtfully, thinking environmentally, experimenting fearlessly, and exploring openly—Hannah Thiessen challenges knitters of all skill levels to view their practice in a new way. Each chapter contains explorations of fiber types; profiles of well-known yarn types, makers, and yarn suppliers; and garment patterns inspired by the featured fibers. With contributions from knitting superstars Norah Gaughan, Bristol Ivy, and many others, *Slow Knitting* proposes an approach to knitting that is both minimalist and all-encompassing, and emphasizes what makes knitting a meditation, a passion, and a unique necessity. “Promotes the concept of ‘slow knitting’ which discards the pressure to produce prolifically and instead, revolves around the idea that thoughtfully produced yarn will result in better projects for you—the crafter.” —MarthaStewart.com

"I knit so I don't kill people" -bumper sticker spotted at Rhinebeck Sheep and Wool Festival For Adrienne Martini, and countless others, knitting is the linchpin of sanity. As a working mother of two, Martini wanted a challenge that would make her feel in charge. So she decided to make the Holy Grail of sweaters—her own Mary Tudor, whose mind-numbingly gorgeous pattern is so complicated to knit that its mere mention can hush a roomful of experienced knitters. Created by reclusive

designer Alice Starmore, the Mary Tudor can be found only in a rare, out-of-print book of Fair Isle-style patterns, *Tudor Roses*, and requires a discontinued, irreplaceable yarn. The sweater, Martini explains, "is a knitter's Mount Everest, our curse, and our compulsion. I want one more than I can begin to tell you." And so she took on the challenge: one year, two needles, and countless knits and purls to conquer Mary Tudor while also taking care of her two kids, two cats, two jobs, and (thankfully) one husband—without unraveling in the process. Along the way, Adrienne investigates the tangled origins of the coveted pattern, inquires into the nature of artistic creation, and details her quest to buy supplies on the knitting black market. As she tries not to pull out her hair along with rows gone wrong, Martini gets guidance from some knitterati, who offer invaluable inspiration as she conquers her fear of Fair Isle. A wooly Julie and Julia, this epic yarn celebrates the profound joys of creating—and aspiring to—remarkable achievements. These vibrantly patterned sweaters come from Canada's acclaimed Philosopher's Wool Company, known best for their distinctive color palettes and two-handed Fair Isle method.
