Out of Darkness, Shining Light Aug 10 2021 ONE OF THE GUARDIAN'S 2020 FICTION HIGHLIGHTS: Petina Gappah's epic journey through nineteenth-century Africa is 'engrossing, beautiful and deeply imaginative.' (Yaa Gyasi) This is the story of the body of Bwana Daudi, the Doctor, the explorer David Livingstone - and the sixty-nine men and women who carried his remains for 1,500 miles so that he could be borne across the sea and buried in his own country. The wise men of his age say Livingstone blazed into the darkness of their native land leaving a track of light behind where white men who followed him could tread in perfect safety. But in Petina Gappah's radical novel, it is those in the shadows of history - those who saved a white man's bones; his dark companions; his faithful retinue on an epic funeral march - whose voices are resurrected with searing intensity. This final, fateful journey across the African interior is lead by Halima, Livingstone's sharp-tongued cook, and three of his most devoted servants: Jacob, Chuma and Susi. Their tale of how his corpse was borne out of nineteenth-century Africa - carrying the maps that sowed

the seeds of the continent's brutal colonisation - has the power of myth. It is not only symbolic of slavery's hypocrisy, but a portrait of a world trembling on the cusp of total change - and a celebration of human bravery, loyalty and love.

Nineteen Eighty-Four Sep 11 2021 "Nineteen Eighty-

Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Daughters of Darkness Dec 26 2022 *Daughters of Darkness* is a collection of fine art portraits of women in corpse paint. A nod to black metal and doom album cover art, *Daughters of Darkness* was photographed over 10+ years, with more than 400 models from all over the world, almost all of which did their own corpse paint and are fans of black metal. *Daughters of Darkness* features many celebrities, actresses, musicians, and models (some under the cover of corpse painted anonymity) all of whom donned only corpse paint for this book. Photographed by internationally renowned music and fine art photographer Jeremy Saffer, this project combines both his music photography and fine art photography worlds into a single project, which was conceived to capture the memory of flipping through albums in a music store and buying albums based entirely on the albums cover art (which often featured a nude portrait, someone in corpse paint, or both) prior to knowing the music or the band.

Like the music that inspired it, *Daughters of Darkness* shows the duality of finding beauty in dark imagery, and finding darkness within beauty.

House of Darkness House of Light Jul 21 2022 Roger and Carolyn Perron purchased the home of their dreams and eventual nightmares in December of 1970. The Arnold Estate, located just beyond the village of Harrisville, Rhode Island seemed the idyllic setting in which to raise a family. The couple unwittingly moved their five young daughters into the ancient and mysterious farmhouse. Secrets were kept and then revealed within a space shared by mortal and immortal alike. Time suddenly became irrelevant; fractured by spirits making their presence known then dispersing into the ether. The house is a portal to the past and a passage to the future. This is a sacred story of spiritual enlightenment, told some thirty years hence. The family

is now somewhat less reticent to divulge a closely-guarded experience. Their odyssey is chronicled by the eldest sibling and is an unabridged account of a supernatural excursion. Ed and Lorraine Warren investigated this haunting in a futile attempt to intervene on their behalf. They consider the Perron family saga to be one of the most compelling and significant of a famously ghost-storied career as paranormal researchers. During a seance gone horribly wrong, they unleashed an unholy hostess; the spirit called Bathsheba; a God-forsaken soul. Perceiving herself to be the mistress of the house, she did not appreciate the competition. Carolyn had long been under siege; overt threats issued in the form of fire...a mother's greatest fear. It transformed the woman in unimaginable ways. After nearly a decade the family left a once beloved home behind though it will never leave them, as each remains haunted by a memory. This tale is an inspiring testament to the resilience of the human spirit on a pathway of discovery: an eternal journey for the living and the dead.
