& Other Principles of Great Teaching
May 21 2022 Is great teaching a gift that only a few of us are born with, or is it a skill that can be learned? In Never Work Harder Than Your Students, Robyn Jackson makes a radical assertion: Any teacher can become a master teacher by developing a master teacher mindset, The master teacher mindset can be achieved by rigorously applying seven principles to your teaching until they become your automatic response

to students in the classroom. The more you practice these principles, the more you begin to think like a master teacher. The seven principles are

1. Start where your students are.
2. Know where your students are going.
3. Expect to get your students to their goal.
4. Support your students along the way.
5. Use feedback to help you and your students get better.
6. Focus on quality rather than quantity.
7. Never work harder than your students.

Using these seven principles, Jackson shows you how to become a master teacher no matter where you are in your practices. Each chapter

provides a detailed explanation of one of the mastery principles, the steps you need to take to apply them to your own practice, and suggestions for how you can begin practicing the principle in your classroom right away. Jackson offers stories from her own teaching practice as well as from other teachers she has helped to show you how each principle works. Teaching is a hard job, but using Jackson's principles will help you and your students reap the rich rewards of that hard work. Book jacket.

Money on't Table - Grit, Work and Family Pride Feb 24 2020 Their parents worked as miners and lace workers, but by the mid-twentieth century new opportunities beckoned for the children of the Midlands. 'Walking up Quarry Street, Albert felt a huge surge of pride. His first pay packet. He'd earned it all himself. His heart nearly burst out of his chest as he placed the money on the kitchen table in front of his mother. She picked it up, smiled briefly, and then said, "It's not a lot, but it'll do.'" Derek, Betty,

Albert, Pauline, Doreen and Bob came from families where every penny counted. Education meant sacrifice, and even children had to help their family through illness, poverty and disaster. Leaving school as young as thirteen, they went to work at the Great British companies Boots, Players and Raleigh. Their new lives took them from cigarette packing, sewing machine piecework and selling rubber 'prophylactics' to places their parents could not have dreamt of - fitting lingerie, working on the Queen Mary and even becoming a director at Boots. Following the loves and losses of six young men and

women, Money on't
Table is the true
story of building
new lives and a new
Britain.
