Love Your Life Not Theirs Jul 22 2020 In *Love Your Life, Not Theirs*, Rachel Cruze shines a spotlight on the most damaging money habit we have: comparing ourselves to others. Then she unpacks seven essential money habits for living the life we really want--a life in line with our values, where we can afford the things we want to buy without being buried under debt, stress, and worry. The Joneses are broke. Life looks good, but hidden beneath that glossy exterior are credit card bills, student loans, car payments, and an out-of-control mortgage. Their money situation is a mess, and they're trying to live a life they simply can't afford. So why exactly do we try so hard to keep up with the Joneses? Are we really living the lives we want, or are we chasing someone else's dream, just trying to keep up appearances on social media, at church, and in our community? Why are we letting other people set the pace for our own

family's finances? In *Love Your Life, Not Theirs*, Rachel shows you how to buy and do the things that are important to you--the right way. That starts by choosing to quit the comparisons, reframing the way you think about money, and developing new habits like avoiding debt, living on a plan, watching your spending, saving for the future, having healthy conversations about money, and giving. These habits work, and Rachel is living proof. Now, she wants to empower you to live the life you've always dreamed of without creating the debt, stress, and worry that are all too often part of the deal. Social media isn't real life, and trying to keep up with the Joneses will never get you anywhere. It's time to live--and love--your life, not theirs. "I've never read a book about money that takes this approach--and that's a good thing! Comparison has a way of weaving itself throughout all aspects of our lives, including our money. In *Love Your Life, Not Theirs*, Rachel Cruze outlines the seven money habits that really matter--and they have nothing to do with keeping up with the Joneses!" Candace Cameron-Bure Actress, author, and co-host of *The View* "*Love Your Life, Not Theirs* is full of the kind of practical, straightforward advice we've come to expect from Rachel Cruze. She offers guidance on paying down debt, smart saving, and the right way to talk to your spouse about money. These indispensable tips can help with day-to-day spending decisions and put you on a path to establishing healthy financial habits." Susan Spencer Editor-in-Chief for *Woman's Day* "Cruze's self-deprecating and honest voice is a great resource for anyone wanting to take charge of their money. With humor and approachability, she helps her readers set themselves up for success and happiness, no matter what current financial state they may be in." Kimberly Williams-Paisley New York Times best-selling author of *Where the Light Gets In* "In today's world of social media, the temptation to play

the comparison game is stronger than ever. Love Your Life, Not Theirs is the perfect reminder that, when it comes to money, comparison is a game you can't win. A terrific--and much needed--read." Big Money With Your Book ...Without Selling A Single Copy!
Nov 18 2022 Let's begin this with total transparency. Most people don't make a lot of money with their book. The average self-published author makes less than \$100 per year. The average U.S. nonfiction book is now selling less than 250 copies per year and less than 2,000 copies over its lifetime. Very few titles are big sellers. Only 62 of 1,000 business books released in 2009 sold more than 5,000 copies, according to an analysis by the Codex Group (New York Times, March 31, 2010). A book has far less than a 1% chance of being stocked in an average bookstore. There are thousands of titles competing for that limited shelf space. What if your book becomes a bestseller? Most people think, that once that happens, your book will take

off. Then you'll be in-demand for interviews, and everyone will just magically just come buy your stuff, and you'll be famous... right? Wrong. "If you build it, they will come." Only worked for Kevin Costner in the Field Of Dreams. (And "Shoeless Joe Jackson" is probably not your target audience.) The TRUTH is: You need to have a system in place (i.e. products and services, or a business) to monetize your book. What happens if you don't? Well... not much. And that's the problem. Inside this book, you will learn 4 specific strategies, THAT YOU CAN USE, to make 6-7 figures with your book. Yeah, and you can do them WITHOUT selling a single copy of your book. Inside this book, you'll learn the BIG SECRETS from interviews with authors who are using these strategies RIGHT NOW... to grow a massive INCOME, and make a difference. Your book could, and should become one of your most powerful marketing tools. Get it now, and learn how you can start making money with your book today. *BONUS: You'll actually discover many more than 4 strategies for you to make money with your book. But "Shhhhhh... don't tell anybody." MORE in this book: If you know you have a book or books inside you, here you will learn not only how to get that message and those ideas into the right book and get it published, but more importantly how to Turn it into your most powerful marketing tool. If you have doubts or question that you have, 'what it takes' to write a book and find the idea of writing one daunting, this book will replace your doubts and questions with practical advice and motivation. Whether you want to make it hit BESTSELLER lists, or just "sell more" of your products or services, this book will help give you a competitive advantage, that makes it easier to do so. INSIDE: • WHY having a book is your best marketing tool • HOW to build authority and credibility with a book • STEP-BY-STEP how to turn your book into your ultimate 'Lead

Generation Tool' • NINJA strategies to use your book to bypass gatekeepers, and get it into the hands of your 'Ideal Client' • MEDIA secrets for authors that gets you tons of Free Publicity • HOW to use your book to get more profitable Speaking Engagements • And so much more... WHAT THIS BOOK IS NOT: • This book is NOT a formula to "get rich quick" • This book is NOT going to magically make you successful • This book is NOT for people who are not willing to "do the work" This book WILL show you a simple path that you can follow. But it will take your hard work, and follow-through to make it happen. You can do it. And this book will help you. But it will not do it for you. However, do the work, and you'll wish you had read this book YEARS ago!

Take the Money and Run: Sovereign Wealth Funds and the Demise of American Prosperity Oct 17 2022 In this book, an expert in the field explains why the United States is the world's largest debtor nation and how America's relationship to creditor states is of growing economic, diplomatic, and even national security concern. Foreign countries are not merely investing in U.S. corporations but are purchasing them outright: Abu Dhabi bought Citigroup securities, Kuwait purchased a large block Merrill Lynch stock, and China bought Morgan Stanley's convertible securities-and this happened before the September 2008 meltdown of Wall Street. The means by which wealthy foreign states make these purchases are sovereign wealth funds, their surplus capital that they are seeking to invest in order to generate the greatest return. Currently, the largest sovereign wealth funds are held by the United Arab Emirates (of which Abu Dhabi is part), Norway, Singapore, Kuwait, and the People's Republic of China; Qatar and Libya are also in the top ten. The United States has no such fund (although the state of Alaska does). This book takes a close look at China's and Norway's sovereign wealth funds to explain how they work. The author also uses domestic examples (Harvard's endowment, the California's state employees' retirement fund) to propose how the United States could create a sovereign wealth fund, speculating that such a fund could solve the looming Social Security funds shortfall. Most important, the book elucidates the national security aspects of not having an American sovereign

wealth fund when so many other nations-both friend and foe-have them.

Libra Shrugged Feb 09 2022 Silicon Valley tries to disrupt the world — and the world says “no.” Facebook: the biggest social network in history. A stupendous, world-shaping success. But governments were giving Facebook trouble over personal data abuses, election rigging and fake news. Mark Zuckerberg wondered: what if Facebook could pivot to finance? Or, better: what if Facebook started its own private world currency?

Facebook could have so much power that governments couldn't stop them. It would be the Silicon Valley dream. Facebook launched Libra in June 2019. Libra would be an international currency and payment system. It would flow instantly around the world by phone. It could even "bank the unbanked." Libra could apparently do all this just by using a "blockchain." But Libra would also make Facebook too big to control—and to lead the way for Facebook's Silicon Valley fellows to swing the power of their money as they pleased. Facebook and their friends could work around any single country's rules. Libra could shake whole economies. And Facebook would become the "digital identity" provider to the world. If you wanted to use money at all, you'd have to go through Facebook. Governments looked at Libra — and they saw another 2008 financial crisis in the making. Facebook's plan would have made the company even more entrenched — at the cost of broken economies worldwide. Starting with toppling the US dollar. Libra was as incompetent as it was arrogant — and the world stopped it in its tracks. But how did Facebook put forward such a bizarre and ill-considered plan, that left every regulator who saw it reeling in horror? And what happens when another company tries the same trick? Or when Facebook won't take "no" for an answer, and releases the cut-down version that they're already calling "Libra 2.0"? "Libra Shrugged" is the story of a bad idea. Also covered:

- * Bitcoin and cryptocurrency: the source of all the bad ideas in Libra.
- * Central Bank Digital Currencies: digital versions of official legal tender, suddenly fashionable again because of Libra.
- * Facebook's early forays into payments, with Facebook Credits and Messenger Payments.

7 Money Rules for Life® Apr 11 2022 Presents advice about

achieving lifelong financial stability, discussing seven simple principles and strategies applicable to every income level that help people get out of debt and manage their money.

The Psychology of Money Jul 14 2022 Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

Money Confidence Sep 16 2022 When it comes to money, hope is not a strategy. Toughen up, take action, and keep what's yours! Have you, like many women, put off organizing your financial life? You know you want independence, you know you want to save, and you know you want a solid retirement. But if you're overwhelmed at the thought of where and how to begin, you're not alone. You may have been raised to defer to others in matters of money, or you may feel you simply lack the understanding of how to take on financial matters. Without the confidence they need, it's easy for women to find themselves in a situation where the only action they feel they can take is hoping that everything will turn out all right in the end. But planning for the future doesn't have to be this way. Money Confidence is Crystal Oculee's authoritative and engaging reality check and call to action for women of all ages to take—or regain—control of their financial lives. The author shows why hope is not a financial strategy, and how, with the tools and information she provides, women can attain the independence, savings, and secure retirement they want. The author cleverly employs metaphors from familiar fairy tales to illuminate and accentuate the book's serious message: Women need to toughen up; and they can and need to identify and overcome myths and mind-sets that place them at a disadvantage when it comes to dealing with their money and finding and working with financial

advisors. Oculee shows women how to communicate, be strong, ask questions, and reject advisors who don't take them seriously. Real-life scenarios of various women's experiences with money and advisors prove how women can get the confidence they need once they know what is holding them back. The author presents informative, down-to-earth explanations of common financial situations and specific financial products along with useful worksheets in a conversational and friendly tone with a good dose of sass. Women will find her valuable and easy-to-follow advice rings true. Crystal is a personal finance expert, a national financial motivational speaker, a Personal Money Trainer™, and author. She is a regular TV and radio guest who has appeared on CBS News, Fox, ABC, KFI, KTLK, KRLA, KDAR, and KKLA. She has also been featured in publications such as Entrepreneur and Redbook. ?Crystal has been a guest speaker at numerous events sponsored by organizations such as the National Active and Retired Federal Employees Association (NARFE), the Screen Actor's Guild (SAG), the Motion Picture & Television Fund, California Women's Conference, the Los Angeles Women's Expo, An Empowered Woman, and the Guam Women's Leadership Retreat. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."
