The Lives of the Fathers, Martyrs, and Other Principal Saints Apr 05 2021

Clouds and Glory May 06 2021 *Clouds and Glory* is the final volume in a three-volume collection of prayers and other resources based on the New Common Worship Lectionary used widely around the world. Written in the Celtic style for which David Adam is well-known, and linked to the Sunday readings, these prayers and intercessions may be used by congregations for the Prayers of the People, as well as by individuals seeking to supplement their personal devotions.

The Roman Martyrs Dec 21 2019 *The Roman Martyrs* contains translations of forty Latin *passiones* of saints who were martyred in Rome or its near environs, during the period before the peace of the Church (c. 312). Some of the Roman martyrs are universally known—St. Agnes, Sebastian or Laurence, for example—but others are scarcely recognized outside the ecclesiastical landscape of Rome itself. Each of the translated *passiones* is accompanied by an individual introduction and commentary; the translations are preceded by an Introduction which describes the principal features of this little-known genre of Christian literature, and are followed by five Appendices which present translated texts which are essential for understanding the cult of Roman martyrs. This volume offers the first collection of the Roman *passiones* translated into a modern language. They were mostly composed during the period 425-675, by anonymous authors who were presumably clerics of the Roman churches or cemeteries which housed the martyrs' remains. It is clear that they were composed in response to the explosion of pilgrim traffic to martyrial shrines from the late fourth century onwards, at a time when authentic records (protocols) of their trials and executions had long since vanished, and the authors of the *passiones* were obliged to imagine the circumstances in which martyrs were tried and executed. The *passiones* are works of fiction; and because they abound in ludicrous errors of chronology, they have been largely ignored by historians of the early Church. Although they cannot be used as evidence for the original martyrdoms, they nevertheless allow a fascinating glimpse of the concerns which animated Christians during the period in question: for example, the preservation of virginity, or the ever-present threat posed by pagan practices. As certain aspects of Roman life will have changed little between the second century and the fifth, the *passiones* shed valuable light on many aspects of Roman society, not least the nature of a trial before an urban prefect, and the horrendous tortures which were a central feature of such trials. The *passiones* are an indispensable resource for understanding the topography of late antique Rome and its environs, as they characteristically contain detailed reference to the places where the martyrs were tried, executed, and buried.

On the Predestination of the Saints Jul 08 2021 Augustine, the man with upturned eye, with pen in the left hand, and a burning heart in the right (as he is usually represented), is a philosophical and theological genius of the first order, towering like a pyramid above his age, and looking down commandingly upon succeeding centuries. He had a mind uncommonly fertile and deep, bold and soaring; and with it, what is better, a heart full of Christian love and humility. He stands of right by the side of the greatest philosophers of antiquity and of modern times. We meet him alike on the broad highways and the narrow footpaths, on the giddy Alpine heights and in the awful depths of speculation, wherever philosophical thinkers before

him or after him have trod. As a theologian he is facile princeps, at least surpassed by no church father, schoolman, or reformer. With royal munificence he scattered ideas in passing, which have set in mighty motion other lands and later times. He combined the creative power of Tertullian with the churchly spirit of Cyprian, the speculative intellect of the Greek church with the practical tact of the Latin. He was a Christian philosopher and a philosophical theologian to the full.

Death Liturgy and Ritual Jul 28 2020 Death Liturgy and Ritual is a two-volume study of Christian funerary theology and practice, presenting an invaluable account of funeral rites and the central issues involved for compilers and users. Paul Sheppy writes from direct experience of conducting funerals and of drafting liturgical resources for others. In Volume II: A Commentary on Liturgical Texts, reviews a wide range of current Christian funeral rites and examines how they reflect both the Church's concern for the death and resurrection of Christ and the contemporary secular demand

for funerals which celebrate the life of the deceased. The companion volume, Volume I: A Pastoral and Liturgical Theology, proposes that the Church ought to construct its theological agenda in dialogue with other fields of study. Sheppy argues for a Christian statement about death that finds its basis in the Paschal Mystery, since human death must be explained by reference to Jesus' death, descent to the dead, and resurrection. Using the three phases of van Gennepe's theory of rites of passage, the author shows how the Easter triduum may be seen as normative for Christian liturgies of death.

The Cult of the Saints Jun 07 2021 A new edition of the “brilliantly original and highly sophisticated” study of saint worship after the fall of the Roman Empire (Library Journal). In this groundbreaking work, Peter Brown explores how the worship of saints and their corporeal remains became central to religious life in Western Europe after the fall of the Roman Empire. During this period, earthly remnants served as a heavenly connection, and their veneration is a fascinating window into the cultural mood of a region in transition. Brown challenges the long-held two-tier idea of religion that separated the religious practices of the sophisticated elites from those of the superstitious masses, instead arguing that the cult of the saints crossed boundaries and played a dynamic part in both the Christian faith and the larger world of late antiquity. He shows how men and women living in harsh and sometimes barbaric times relied upon the holy dead to obtain justice, forgiveness, and power, and how a single sainted hair could inspire great thinkers and great artists. An essential text by one of the foremost scholars of European history, this expanded edition includes a new preface from Brown, which presents new ideas based on subsequent scholarship. “Informative...demonstrates once again Brown’s genius for sharing with his readers the fruits of not only his own painstaking and meticulous scholarship but also his penetrating understanding of the evolution of Western culture as a whole.”—Religious Studies
