Mission Rome Mar 07 2021 'Mission Rome' takes your young travelers through the famous sights of Rome, engaging them in an exciting scavenger hunt as you explore city landmarks together.

The Secret Mar 02 2023 The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.

GIS Concepts For School Children. Creating A Scavenger Hunt For Children With ArcGIS Collector And Survey123 Feb 18 2022 Academic Paper from the year 2019 in the subject Geography / Earth Science - Cartography, Geographic Information Science and Geodesy, grade: 1, University of Salzburg (ZGIS), language: English, abstract: This paper presents a scavenger hunt. A scavenger hunt can be a ludic and active approach to address pupils and transport educational and subject content. Thus, this scavenger aims to familiarize pupils of the age class 10-12 years with GIS and the possibilities GIS offer in a playful manner. It includes 5 stations which are addressed by following an instruction-sheet with QR-codes leading to the respective places and posing questions and tasks. For the scavenger hunt there are two datasets that must be handled: The tasks for each station including the submitted answers and the tracks of the groups. The results and the tracks should also be made available to the Z_GIS geoportal following the guidelines of open standards and interoperability. To fulfill these requirements a combination of two ESRI software products was used: ArcGIS Collector and Survey123. The tracks can be accessed as web feature service via REST URL whereas the survey answers are directly integrated into a dashboard with a map. So, the results are immediately updated and available in ArcGIS Online for inspection, comparison and discussion.

Head First Physics Mar 19 2022 Wouldn't it be great if there were a physics book that showed you how things work instead of telling you how? Finally, with Head First Physics, there is. This comprehensive book takes the stress out of learning mechanics and practical physics by providing a fun and engaging experience, especially for students who "just don't get it." Head First Physics offers a format that's rich in visuals and full of activities, including pictures, illustrations, puzzles, stories, and quizzes -- a mixed-media style proven to stimulate learning and retention. One look will convince you: This isn't mere theory, this is physics brought to life through real-world scenarios, simple experiments, and hypothetical projects. Head First Physics is perfect for anyone who's intrigued by how things work in the natural world. You'll quickly discover that physics isn't a dry subject. It's all about the world we live in, encompassing everything from falling objects and speeding cars, to conservation of energy and gravity and weightlessness, and orbital behavior. This book: Helps you think like a physicist so you can understand why things really work the way they do Gives you relevant examples so you can fully grasp the principles before moving on to more complex concepts Designed to be used as a supplement study guide for the College Board's Advanced Placement Physics B Exam Introduces principles for the purpose of solving real-world problems, not memorization Teaches you how to measure, observe, calculate -- and yes -- how to do the math Covers scientific notation, SI units, vectors, motion, momentum conservation, Newton's Laws, energy conservation, weight and mass, gravitation and orbits, circular motion and simple harmonic motion, and much more If "Myth Busters" and other TV programs make you curious about our physical world -- or if you're a student forced to take a physics course -- now you can pursue the subject without the dread of boredom or the fear that it will be over your head. Head First Physics comes to rescue with an innovative, engaging, and inspirational way to learn physics!

Bring Me The Head Of The Taskmaster Nov 27 2022 Fastest wins. Your adventure starts now ... This is a race. It is not a race against the clock, because that would be a far easier race. Clocks can be fast, but clocks never win races. It's nearly always humans, sometimes horses, and occasionally dogs. This is a race against your fellow Taskmaster players. You are competing against everyone else who is reading this book. All you've got to do is find The Taskmaster's Head first. This is a race with many twists and turns, that requires very little running, much sideways thinking and quite a lot of patience. Thankfully, there will be a shedload of tasks along the way to distract you. There are tasks to do on your own, tasks to do with your family and friends, and tasks for bigger groups too. Some of these distractions may slow you down, but some may help you get where you need to go. As always, enjoy them, do your best, make good choices. So get going. Take on the tasks. All the information you need is in the book... Alex Horne, Taskmaster's Assistant
