*Health and Wealth in Vietnam* Aug 22 2022 How do Vietnamese households live and work? This book answers many of the most important questions, including: Who uses contraceptives? Which children get the most health care? Who are the poor, and why are they poor? Which families migrate? Why do so many rural workers change jobs? Where do households get credit? What drives rice production? The result of a unique collaboration between Vietnamese and international social scientists, the fourteen concise chapters paint a fascinating picture of household health and wealth. All are based on the Vietnam Living Standards Survey, the most accurate and complete source of data available. The use of statistical techniques in every chapter gives the book added coherence while providing depth and clarity to the analysis. A must for anyone with a serious interest in Vietnam, this highly readable book is also designed to serve as a reference work.

**The Joint Chiefs of Staff and National Policy, 1957-1960** Oct 20 2019 The series, The Joint Chiefs of Staff and National Policy, treats the activities of the Joint Chiefs of Staff since the close of World War II. Because of the nature of the activities of the Joint Chiefs of Staff as well as the sensitivity of the sources, the volumes of the series were originally prepared in classified form. Classification designations, in the text and footnotes, are those that appeared in the original classified volume. Volume VII describes JCS activities during the period 1957-1960 except for activities related to Indochina which are covered in a separate series. Although only the names of its principal authors appear on the title page, the preparation of Volume VII was truly a collaborative effort. Originally written in the 1960s, the classified publication had thirteen chapters.

**Macromedia ColdFusion MX Development** May 27 2020 Macromedia's ColdFusion is a popular choice for making dynamic Web pages coupled to easy-to-maintain databases. From his teaching experience, the author has found that students learn best by seeing several sample CF scripts and the output those scripts produce. The author offers lots of example code that is well-commented, is discussed thoroughly prior to its introduction, and is associated with a screen capture that shows the code's output.
