[Echoes](#) Jan 14 2020 Set in Europe through the World Wars, three generations of women share a story that will echo across time. The summer of 1915 was a time of prosperity and unease for the Wittgenstein family, and for eldest daughter Beata it was a time of awakening. By the glimmering waters of Lake Geneva, she met a young French officer and fell in love. As the years pass, Beata must watch in horror as Europe is once again engulfed in war. Her daughter Amadea is forced into hiding, and family and friends are swept away without a trace. Taking on daring missions behind enemy lines, Amadea discovers her place in an unbreakable chain between generations . . . between her lost family and the family of her future.

Echoes from the Other Land Sep 02 2021 These haunting stories beautifully evoke the oppressive lives of modern women in the Islamic Republic of Iran. Anis, a computer programmer, is at the end of her rope, putting up with the bullying criticism of a no-good, unemployed lout of a husband; Azar is a young divorcee, and the only person she can talk to is Reza; but she can see him only late at night when "they" are not around; Sharmin has Down's syndrome and hopelessly loves Azad; he loves Kazhal, beautiful and blessed; but Kazhal is married off and is divorced at twenty and now awaits a hopeless future . . . For these and other characters the weight of traditional attitudes, the harassment of the religious establishment, and the attitudes of men make for a frustrating, confining, and sometimes unlivable existence.

The Story of Nursing in British Mental Hospitals Aug 21 2020 From their beginnings as the asylum attendants of the 19th century, mental health nurses have come a long way. This comprehensive volume is the first book in over twenty years to explore the history of mental health nursing, and during this period the landscape has transformed as the large institutions have been replaced by services in the community. McCrae and Nolan examine how the role of mental health nursing has evolved in a social and professional context, brought to life by an abundance of anecdotal accounts. Moving from the early nineteenth to the end of the twentieth century, the book's nine chronologically-ordered chapters follow the development from untrained attendants in the pauper lunatic asylums to the professionally-qualified nurses of the twentieth century, and, finally, consider the rundown and closure of the mental hospitals from nurses' perspectives. Throughout, the argument is made that whilst the training, organisation and environment of mental health nursing has changed, the aim has remained essentially the same: to develop a therapeutic relationship with people in distress. McCrae and Nolan look forward as well as back, and highlight significant messages for the future of mental health care. For mental health nursing to be meaningfully directed, we must first understand the place from which this field has developed. This scholarly but accessible book is aimed at anyone with an interest in mental health or social history, and will also act as a useful resource for policy-makers, managers and mental health workers.

Echoes From The Holocaust Dec 05 2021 Echoes from the Holocaust A Memoir Mira Ryczke Kimmelman "During the most difficult times of World War II," Mira Kimmelman writes, "I wondered whether the world really knew what was happening to us. I lived in total isolation, not knowing what was taking place outside the ghetto gates, outside the barbed wires of concentration camps. After the war, would anyone ever believe my experiences?" Kimmelman had no way of preserving her experiences on paper while they happened, but she trained herself to remember. And now, as a survivor of the Holocaust, she has preserved her recollections for posterity in this powerful and moving book—one woman's personal perspective on a terrible moment in human history. The daughter of a Jewish seed exporter, the author was born Mira Ryczke in 1923 in a suburb of the Baltic seaport of Danzig (now Gdansk, Poland). Her childhood was happy, and she learned to cherish her faith and heritage. Through the 1930s, Mira's family remained in the Danzig area despite a changing political climate that was compelling many friends and neighbors to leave. With the Polish capitulation to Germany in the autumn of 1939, however, Mira and her family were forced from their home. In calm, straightforward prose—which makes her story all the more harrowing—Kimmelman recalls the horrors that befell her and those she loved. Sent to Auschwitz in 1944, she escaped the gas chambers by being selected for slave labor. Finally, as the tide of war turned against Germany, Mira was among those transported to Bergen-Belsen, where tens of thousands were dying from starvation, disease, and exposure. In April 1945, British troops liberated the camp, and Mira was eventually reunited with her father. Most of the other members of her family had perished. In the closing chapters, Kimmelman describes her marriage, her subsequent life in the United States, and her visits to Israel and to the places in Europe where the events of her youth transpired. Even when confronted with the worst in humankind, she observes, she never lost hope or succumbed to despair. She concludes with an eloquent reminder: "If future generations fail to protect the truth, it vanishes. . . . Only by remembering the bitter lesson of Hitler's legacy can we hope it will never be repeated. Teach it, tell it, read it." The Author: Mira Ryczke Kimmelman is a resident of Oak Ridge, Tennessee, and lectures widely in schools about her experiences during the Holocaust.

Echoes from the Valley May 30 2021 What began as a list of names, a box of documents, a number of family Bibles, and idle curiosity gradually evolved into a book about the settlement of Virginia and the western conquest of the great Valley of the Shenandoah, the birth of the New River settlements, and the emergence of the Watauga and Holston pioneers on the western slopes of the Appalachian Mountains. Placing the generations into a format of historic events began to bring these fugitives from the European wars and catastrophes into focus as real people. Since this story concerns the early foundation of this nation, the author did not choose to go back beyond the immigration from Europe. In a few cases, however, where the material was available and explanatory, it was incorporated into these pages. This does not mean that the more remote history of others was not available. It just did not contribute to the integrity of this book. The book is not a genealogy although it uses that structure to build the generations. And it is not simply a history. It is a perspective of history, demonstrated through the genealogy and migrations of one family. The whole is dependent upon each life among the hundreds of those who made this family possible. Make no mistake about it! The loss of a single one—just one!—and the people that followed would never have been born! The relations are carefully delineated. Children are named where it is possible. To this extent, it is hoped other lineages may find the book useful. The appendix contains copies from books and papers that might be difficult or impossible to obtain. It is important to realize that as the reader goes backward in time, the numbers of people become fewer. This means that the chances of interrelations increase as the two hundredth year marker of the past is approached. All of us share a kinship in the origin and the destiny of the United States of America!
