Pacific Passions Nov 14 2019 If you have ever experienced a love so great, so intense, that it made all other relationships pale in comparison, Pacific Passions is that message written from the heart. This book is a collection of writings over time to the one love who could be somewhere in time. Love is found wherever you want it to be: by the sea, in the gardens, with nature, within your heart, or in the recesses of your memory of the one you will always love. This book tells the story of a journey of ones feelings expressed over time to his one true love who, perhaps one day, will come to be.

Lies, Passions & Illusions Apr 12 2022 A critical history of 20th century political movement by the Hannah Arendt Prize-winning author of *Interpreting the French Revolution*. Widely considered one of the leading historians of the French Revolution, François Furet was hailed as “one of the most influential men in contemporary France” by the *New York Review of Books*. In *Lies, Passions, and Illusions*, Furet’s presents a cohesive, late-career meditation on the political passions of the twentieth century, drawn from a wide-ranging conversation between Furet and philosopher Paul Ricoeur. Published posthumously, it is Furet’s final statement on history and politics. With strokes at once broad and incisive, Furet examines the many different trajectories that nations of the West have followed over the past hundred years. It is a dialogue with history as it happened but also as a form of thought. It is a dialogue with his critics, with himself, and with those major thinkers—from Tocqueville to Hannah Arendt—whose ideas have shaped our understanding of the tragic dramas and upheavals of the modern era. It is a testament to the crucial role of the historian, a reflection on how history is made and lived, and how the

imagination is a catalyst for political change.

Civil Passions Sep 24 2020 In this book Sharon Krause argues that moral and political deliberation must incorporate passions, even as she insists on the value of impartiality. Her work provides a systematic account of how passions can generate an impartial standpoint that yields binding and compelling conclusions in politics.

Passions and Emotions Nov 19 2022 Throughout the history of moral, political, and legal philosophy, many have portrayed passions and emotions as being opposed to reason and good judgment. At the same time, others have defended passions and emotions as tempering reason and enriching judgment, and there is mounting empirical evidence linking emotions to moral judgment. In *Passions and Emotions*, a group of prominent scholars in philosophy, political science, and law explore three clusters of issues: "Passion & Impartiality: Passions & Emotions in Moral Judgment"; "Passion & Motivation: Passions & Emotions in Democratic Politics"; and "Passion & Dispassion: Passions & Emotions in Legal Interpretation." This timely, interdisciplinary volume examines many of the theoretical and practical legal, political, and moral issues raised by such questions.

Dark Passions Book Two Jun 02 2021 Intendent Kira, now Overseer for the entire Klingon-Cardassian Alliance, has entered into a dangerous liaison with Annika Hansen, unaware that Hansen is actually an agent of the Obsidian Order, with instructions to kill Kira when the time is right. But her treacherous partner is not the only threat the Intendent faces. Both Deanna Troi, sadistic mistress of Regent Worf, and B'Elanna Torres, the half-human Intendent of the Sol System, are wary of Kira's unquenchable ambition, and would gladly see her deposed...or worse. With its dramatically different portrayal of familiar characters in a universe 'gone wrong', the Mirror Universe setting has fascinated Star Trek fans since its very first incarnation in the original series episode 'Mirror, Mirror'. Now Susan Wright's two-part crossover sequence takes much-loved alternate-world characters from Star Trek Deep Space Nine - Intendent Kira and Regent Worf amongst them - and gives them new opponents, as characters from Voyager and The Next Generation also find their way into a universe turned upside down.

Prince Charles Mar 11 2022 NEW YORK TIMES BESTSELLER • A “masterly account” (The Wall Street Journal) of the life and loves of King Charles III, Britain’s first king since 1952, shedding light on the death of Diana, his marriage to Camilla, and his preparations to take the throne Sally Bedell Smith returns once again to the British royal family to give us a new look at the man who was the oldest heir to the throne in more than three hundred years. This vivid, eye-opening biography—the product of four years of research and hundreds of interviews with palace officials, former girlfriends, spiritual gurus, and more, some speaking on the record for the first time—is the first authoritative treatment of Charles’s life. Prince Charles brings to life the real man, with all of his ambitions, insecurities, and convictions. It begins with his lonely childhood, in which he struggled to live up to his father’s expectations and sought companionship from the Queen Mother and his great-uncle Lord Mountbatten. It follows him through difficult years at school, his early love affairs, his intellectual quests, his entrepreneurial pursuits, and his intense search for spiritual meaning. It tells of the tragedy of his marriage to Diana; his eventual reunion with his true love, Camilla; and his relationships with William, Kate, Harry, and his grandchildren. Ranging from his glamorous palaces to his country homes, from his globe-trotting travels to his local initiatives, Smith shows how Prince Charles possesses a fiercely independent spirit and yet spent more than six decades waiting for his destined role, living a life dictated by protocols he often struggles to obey. With keen insight and the discovery of unexpected new details, Smith lays bare the contradictions of a man who is more complicated, tragic, and compelling than we knew, until now.

Passions and Projections Mar 31 2021 This volume presents fourteen original essays which explore the philosophy of Simon Blackburn, one of the UK's most influential contemporary philosophers. Blackburn is best known to the general public for his attempts to make philosophy accessible to those with little or no formal training, but in professional circles his reputation is based on a lifetime pursuit of his distinctive version of a projectivist and anti-realist research program. As he sees things, we must always try first to understand and explain what we are doing when we think and talk as we do. This research program reaches into nearly all of the main areas of philosophy: metaphysics, epistemology, philosophy of mind, moral philosophy, and moral psychology. The books and articles he has written provide us with perhaps the most comprehensive statement and defense of projectivism and anti-realism since Hume. The essays collected here document the range and influence of Blackburn's work. They reveal, among other things, the resourcefulness of his distinctive brand of philosophical pragmatism.

The Free Animal Apr 19 2020 Free will is a key but contested concept in the work of Jean-Jacques Rousseau: while the famed philosopher is known to have asserted that free will distinguishes human beings from animals, several interpreters have argued that he merely pretends to have this belief for the sake of healthy politics and to avoid persecution by religious authorities. Through careful readings of key texts and letters, *The Free Animal* offers a new and original exploration of Rousseau's views on free will, just in time for the 200th anniversary of his birth. Lee MacLean shows that Rousseau needs and uses the idea of human consciousness of free will to explain the development of morality, convention, and vice. MacLean bases her argument on a broad range of texts, from canonical works to Rousseau's untranslated letters and drafts. Featuring careful analyses and an extensive engagement with the secondary literature, *The Free Animal* offers a novel interpretation of the changing nature and complexity of Rousseau's intention.

Passions of the Voice Oct 14 2019 "In *The Passions of the Voice* Claire Kahane argues that the subversion of gender definitions promoted especially by feminism in the late nineteenth century

had an unsettling effect on narrative discourse. The emergent figure of the speaking woman, both as narrative trope and as historical agent - personified by the feminist orator - created an anxiety of imagination in Victorian writers. The result is fiction in which the narrative voice loses control of the story it is telling, especially when it evokes the figure of the woman as speaking subject." "Kahane begins with a reading of Freud's "Fragment of an Analysis of Hysteria," a text in which Freud develops the concepts of hysterical narrative and of transference by acting out and then analyzing his own hysteria as he unfolds the meanings of the Dora case. Subsequent chapters explore the hysterical voice in Florence Nightingale's *Cassandra*, Charlotte Bronte's *Shirley*, Alice James's *Diary*, Olive Schreiner's *Story of an African Farm*, Henry James's *The Bostonians*, Virginia Woolf's *The Voyage Out*, T. S. Eliot's "Hysteria," Joseph Conrad's *Heart of Darkness*, and Ford Madox Ford's *The Good Soldier*. Kahane argues that each of these texts exhibits features of a discourse in crisis, and that against these textual instabilities the narrative voice struggles to find a form that will contain the confusions of its utterance. She concludes that, for modernist writers such as Conrad and Ford, hysteria was not a psychopathology subject to cure but a sign of the time."--BOOK JACKET. Political Passions May 13 2022 Ideas about marriage, gender and the family were central to political debate in late Stuart England. Rejecting both the whig narrative that ties Lockeian contract theory to affective individualism, and the recently fashionable claim that liberalism expelled women from the public sphere, Weil shows how political argument became an arena in which the proper relations between men and women, parents and children, public and private were defined and contested.

Desert Passions Dec 20 2022 The Sheik—E. M. Hull's best-selling novel that became a wildly popular film starring Rudolph Valentino—kindled "sheik fever" across the Western world in the 1920s. A craze for all things romantically "Oriental" swept through fashion, film, and literature, spawning imitations and parodies without number. While that fervor has largely subsided, tales of passion between Western women and Arab men continue to enthrall readers of today's mass-market romance novels. In this groundbreaking cultural history, Hsu-Ming Teo traces the literary lineage of these desert romances and historical bodice rippers from the twelfth to the twenty-first century and explores the gendered cultural and political purposes that they have served at various historical moments. Drawing on "high" literature, erotica, and popular romance fiction and films, Teo examines the changing meanings of Orientalist tropes such as crusades and conversion, abduction by Barbary pirates, sexual slavery, the fear of renegades, the Oriental despot and his harem, the figure of the powerful Western concubine, and fantasies of escape from the harem. She analyzes the impact of imperialism, decolonization, sexual liberation, feminism, and American involvement in the Middle East on women's Orientalist fiction. Teo suggests that the rise of female-authored romance novels dramatically transformed the nature of Orientalism because it feminized the discourse; made white women central as producers, consumers, and imagined actors; and revised, reversed, or collapsed the binaries

inherent in traditional analyses of Orientalism.

Avant-garde Film Oct 18 2022 Annotation Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan. In this carefully crafted volume, Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons, surveys the major debates related to that decision, and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II. Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945. He then provides a historical overview of the events in question, beginning with the decision and program to build the atomic bomb. Detailing the sequence of events leading to Japan's surrender, he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders. Finally, Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents, scholarly books, and articles.

Passions and Deceptions Jan 17 2020 A collaborator with Warner Brothers and Paramount in the early days of sound film, the German film director Ernst Lubitsch (1892-1947) is famous for his sense of ironic detachment and for the eroticism he infused into such comedies as *So This Is Paris* and *Trouble in Paradise*. In a general introduction to his silent and early sound films (1914-1932) and in close readings of his comedies, Sabine Hake focuses on the visual strategies Lubitsch used to convey irony and analyzes his contribution to the rise of classical narrative cinema. Exploring Lubitsch's depiction of femininity and the influence of his early German films on his entire career, she argues that his comedies represent an important outlet for dealing with sexual and cultural differences. The readings cover *The Oyster Princess*, *The Doll*, *The Mountain Cat*, *Passion*, *Deception*, *So This Is Paris*, *Monte Carlo*, and *Trouble in Paradise*, which are interpreted as part of an underlying process of negotiation between different modes of representation, narration, and spectatorship--a process that comprises the conditions of production in two different national cinemas and the ongoing changes in film technology. Drawing attention to Lubitsch's previously neglected German films, this book presents the years until 1922 as the formative period in his career.

A Passion for Justice Jan 09 2022 This text argues that justice is a virtue which everyone

shares - a function of personal character and not just of government or economic planning. It uses examples from Plato to Ivan Boesky, to document how we live and how we feel.

Passions and Virtue Oct 06 2021 This book, the last that noted moral theologian Servais Pinckaers, OP, wrote before his death, was conceived as a follow-up to his previous work *Plaidoyer pour la vertu (An Appeal for Virtue)* (2007) Pinckaers' aim in *Passions and Virtue* was to show the positive and essential role that our emotions play in the life of virtue. His purpose is part of a larger project of renewing moral theology, a theology too often experienced as an ethics of obligation rather than as a practical guide to living virtuously. To this end, Pinckaers sketches a positive psychology of the passions as found in the biblical tradition, in the writings of the Fathers of the Church, in pagan authors and, especially, in the writings of Saint Thomas Aquinas.

The Passions of Modernism Feb 27 2021 consciousness, and the life of emotions. The modernist artistic process, Cuda suggests, is a register of the mind's encounter with forces beyond its control." "Resuscitating the classical definition of passion from the Latin *passio*, "to be moved" or "to be acted on," Cuda's study demonstrates that the modernist attraction to passivity arises from a desire to gauge the limits of the active mind and to rethink psychology and aesthetics from the perspective of the moved instead of the mover. Focusing on well-known texts as well as uncollected and archival materials - such as Yeats's letters and Eliot's prose - Cuda sheds new light on four canonical writers by examining their work in terms of "passion scenes," vivid, intense tropes, situated somewhere between exhilaration and terror, that recur with insistent regularity over an artist's entire career, exerting an unusual psychological force on the creative mind that conjures them. Cuda also offers a corrective to debates about --

The Passions of Christ's Soul in the Theology of St. Thomas Aquinas Jun 21 2020

Philosophy and the Passions Jul 03 2021 The subject of the passions has always haunted Western philosophy and, more often than not, aroused harsh judgments. For the passions represent a force of excess and lawlessness in humanity that produces troubling, confusing paradoxes. In this book, noted European philosopher Michel Meyer offers a wide-ranging exegesis, the first of its kind, that systematically retraces the history of philosophic conceptions of the passions in the work of such thinkers as Plato, Aristotle, Augustine, Spinoza, Descartes, Hobbes, Rousseau, Kant, and Freud. The great ruptures that led to passion's condemnation as sin, and to its romantic exultation as the truth of existence, are meticulously registered and the logic governing them astutely explicated. Meyer thus provides new insight into an age-old dilemma: Does passion torture people because it blinds them, or, on the contrary, does it permit them to apprehend who and what we really are?
