Wisconsin entrepreneur Ole Evinrude will inspire children in this addition to the Badger Biographies series for young readers, where the story of Ole's invention, from drawing board to factory floor, is told in a reader-friendly format that includes historic images, a glossary of terms, and sidebars explaining how an outboard motor works. Ole Evinrude was born in Norway in 1877 and immigrated to the United States when he was five years old. The Evinrude family settled in Wisconsin and began farming, but it was clear from a very young age that Ole would not follow the family tradition. Ole Evinrude was meant to work with boats. Building an outboard motor was not easy, though - Ole suffered numerous mechanical and financial setbacks along the way. After years of hard work and persistence, the Evinrude motor company was founded and Ole's outboard motors were an instant hit around the world. Ole continued to improve the design of his motor and attracted other entrepreneurs to the area, making Wisconsin the center of the outboard motor industry for decades. FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. SELOC Marine tune-up and repair manuals provide the most comprehensive, authoritative information available for outboard, inboard and stern-drive engines, as well as personal watercraft. SELOC has been the leading source of how-to information for the marine industry since 1974. Designed and written to serve the needs of the professional mechanic, do-it-yourself boat enthusiast, instructor and student, these manuals are based on actual teardowns done by Seloc's editors/authors in our on-site facility. Every manual features: -Easy-to-follow, step-by-step, illustrated procedures - Hundreds of exploded drawings, photographs and tables -Troubleshooting sections -Accurate specifications and wiring diagrams Covers all engines and drive units, including transmissions. Includes carbureted and fuel injected engines. Over 1,000 illustrations. FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. Author Peter Wright identifies and outlines five parameters -- Power, Weight, Tire Grip, Drag and Lift -- and shows how each can be maximized. In addition, he describes the variety of technologies (including those that have

been banned over the years) that are involved, not just in the makeup of the Formula 1 cars, but also in the component manufacturing, systems testing, and the actual racing of the cars. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. SELOC Marine maintenance and repair manuals offer the most comprehensive, authoritative information available for outboard, inboard, stern-drive and diesel engines, as well as personal watercraft. SELOC has been the leading source of how-to information for the marine industry since 1974.
