The first in-depth analysis of some of the most important epic poems of the Spanish Golden Age, *Myth and Identity in the Epic of Imperial Spain* breathes new life into five of these long-neglected texts. Elizabeth Davis demonstrates that the epic must not be overlooked, for doing so creates a significant gap in one's ability to appraise not only the cultural practice of the imperial age, but also the purest expression of its ideology. Davis's study focuses on heroic poetry written from 1569 to 1611, including Alonso de Ercilla's *La Araucana*, undeniably the most significant epic poem of its time. Also included are Diego de Hojeda's *La Christiada*, Juan Rufo's *La Austriada*, . Lope de Vega's *Jerusalén Conquistada*, and Cristóbal de Virués's *Historia del Monserrate*. Examining these epics as the major site for the construction of cultural identities and Renaissance nationalist myths, Davis analyzes the means by which the epic constructs a Spanish sense of self. Because this sense of identity is not easily susceptible to direct representation, it is often derived in opposition to an "other," which serves to reaffirm Spanish cultural superiority. The Spanish Christian caballeros are almost always pitted against Amerindians, Muslims, Jews, or other adversaries portrayed as backward or heathen for their cultural and ethnic differences. The pro-Castilian elite of sixteenth-century Spain faced the daunting task of constructing unity at

home in the process of expansion and conquest abroad, yet ethnic and regional differences in the Iberian Peninsula made the creation of an imperial identity particularly difficult. The epic, as Davis shows, strains to convey the overriding image of a Spain that appears more unified than the Spanish empire ever truly was. An important reexamination of the Golden Age canon, *Myth and Identity in the Epic of Imperial Spain* brings a new twist to the study of canon formation. While Davis does not ignore more traditional approaches to the literary text, she does apply recent theories, such as deconstruction and feminist criticism, to these poems, resulting in an innovative examination of the material. Confronting such issues as canonicity, gender, the relationship between literature and Golden Age culture, and that between art and power, this publication offers scholars a new perspective for assessing Golden Age and Transatlantic studies Prahlad drove his monstrous father to a murderous rage. He insisted on praising Lord Vishnu who was considered a sworn enemy by his father Hiranyakashipu. When he tried to punish his disobedient son, Hiranyakashipu's potent poisons turned to nectar while his lethal weapons fell harmlessly away. In this tale of bloodthirsty revenge, Prahlad's only defence is his devotion which dramatically puts an end to all evil. This is an introduction to philosophy but with a difference. Through out the book metaphysical issues are shown to be rooted in the history of philosophy. At the same time the author`s tratment of each issues leads right into the contemporary situation. Philosophy can scarcely be defined,the author says, but philosophizing can be `shown`. The various section of the book show in a fresh way what such philosophizing can be like. In the beginning, all the waters of the world mingled. In the beginning, there was nothing but chaos. From all this chaos, the twin primordial beings were born. They were Tiamat, the goddess queen who was salt water personified, and Apsu, the king god of fresh

water. But they had mixed their waters together and thought not of green lands nor human beings nor beasts that roam the land. Therefore, in the beginning, non-existent names failed to cross non-existent lips. Non-existent days failed to roll into non-existent years. In the beginning, no gods nor heroes nor destinies nor stories were manifest. This Amar Chitra Katha special edition brings together some of the stories that

are woven around gods and goddesses. From the mighty Shiva and Vishnu to the much loved Durga and Ganesha. From the popular gods of the epics like Rama and Krishna to the less As Charlton Heston put it: 'There's a temptingly simple definition of the epic film: it's the easiest kind of picture to make badly.' This book goes beyond that definition to show how the film epic has taken up one of the most ancient art-forms and propelled it into the modern world, covered in twentieth-century ambitions, anxieties, hopes and fantasies. This survey of historical epic films dealing with periods up to the end of the Dark Ages looks at epic form and discusses the films by historical period, showing how the cinema reworks history for the changing needs of its audience, much as the ancient mythographers did. The form's main aim has always been to entertain, and Derek Elley reminds us of the glee with which many epic films have worn their label, and of the sheer fun of the genre. He shows the many levels on which these films can work, from the most popular to the specialist, each providing a considerable source of enjoyment. For instance, spectacle, the genre's most characteristic trademark, is merely the cinema's own transformation of the literary epic's taste for the grandiose. Dramatically it can serve many purposes: as a resolution of personal tensions (the chariot race in Ben-Hur), of monotheism vs idolatry (Solomon and Sheba), or of the triumph of a religious code (The Ten Commandments). Although to many people Epic equals Hollywood, throughout the book Elley stresses debt to the Italian epics, which often explored areas of history with which Hollywood could never have found sympathy. Originally published 1984. For centuries, the epics, legends and myths of Mesopotamia's ancient civilization lay buried under the desert sands, along with great cities like Babylon, Nineveh, Ur, and Ashur, waiting for the day when archaeologists would reveal them to the modern world. These myths represent some of the earliest literature ever found. Peopled with characters like the goddess Ishtar and the warrior-king Gilgamesh, they are filled with universal themes that resonate even today. Written for the average reader, this is a retelling of the legends of classical antiquity.
