Fully updated, this new edition of the successful Get ahead! SURGERY 100 EMQs for Finals provides invaluable revision for all medical students preparing for their final examinations. Co-written by Saran Shantikumar, series editor for the Get ahead! series, this book covers the entire syllabus in a clear and comprehensive style, building on the strengths of the first edition to provide reliable and effective revision practice to help achieve success in final exams. The second edition has been completely updated according to current curriculum, and the questions are written in a style similar to the Medical Schools Council Assessment Alliance (MSCAA) bank. Get ahead! SURGERY 100 EMQs for Finals is a helpful resource for medical students preparing for their exams. Reflecting recent changes to the exam, MRCOG Part 2: 500 SBAs and EMQs, Second Edition has been completely updated to include questions and answers in the new SBA format. With over 50% new content, MRCOG Part 2: 500 SBAs and EMQs offers the most up-to-date and comprehensive set of practice questions for trainees preparing for the MRCOG Part 2 exam. Chapters are mapped to the syllabus to deliver structured revision in all the key topics tested in the exam. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. Key Points 500 questions, comprising 250 SBAs and 250 EMQs, reflecting the breadth of topics encountered in the actual exam Questions structured around MRCOG syllabus core modules, ensuring complete coverage for the exam Answers feature concise descriptions to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice Visually-enhanced answers to improve understanding of key concepts Featuring a wealth of practice questions, MRCS Part A: 500 SBAs and EMQs allows trainees to test themselves on everything they need to know to pass the MRCS Part A exam. Calm those exam nerves with 'EMQs and Data Interpretation Questions in Surgery' - the best way for you to assess your understanding of surgery while practising your exam technique. Presenting both Extended Matching Questions and Data Interpretation Questions in the same volume, this 'all in one' book is an ideal revision resource in surgery for med MRCOG PART 2: 550 MCQs, EMQs and SAQs offers the most up-to-date and comprehensive coverage of practice questions for trainees preparing for the MRCOG Part 2 written exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 550 questions, comprising 250 MCQs, 250 EMQs and 50 SAQs, reflecting the breadth of topics encountered in the actual exam Answers feature concise rationales to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice This excellent practical text is a ready source of information on evidence-based treatments and new medical psychological and self-help methods. It is unique in being written especially for GPs and primary care workers including practice nurses health visitors social workers and community psychiatric nurses. It also has great relevance for psychiatric trainees and consultant psychiatrists setting up in general practice. Patients and their relatives will find it useful and accessible. Suitable for medical students, this title includes a chapter on Surgery and Radiology. It contains teaching notes provided alongside each answer to help the reader understand the subject matter. This book is a comprehensive collection of questions in the "single best answer (SBA)" format for the MRCOG2 theory exam. This new format has been introduced in the exam paper from March 2015 and most candidates are still getting used to the change. This book will provide them ample opportunity to familiarize themselves with the concept and then practice answering the questions based on almost all subjects included in the MRCOG 2 theory syllabus. Preparing for the MRCOG2 exam is a daunting task for all Obstetrics and Gynecology doctors. The college constantly reforms the exam structure in an effort to optimize the evaluation process. The endeavor of the authors is to equip the candidates with a vision of the holistic nature of the exam so that they master the art of answering SBA questions. EMQs constitute 60% of the new MRCOG Part 2. This book contains 150 sample questions for candidates taking this examination. With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-s MRCS Part A: 550 SBAs and EMQs, Second Edition continues the tradition of the best-selling first edition by offering a wealth of practice questions covering applied basic sciences and principles of surgery for candidates preparing for the MRCS Part A written exam. With 40% new content, including the addition of trauma and orthopaedic questions to provide complete coverage of surgical specialties, this book remains an essential revision tool designed to maximise chances of exam success. Key points 550 SBAs and theme-based EMQs test knowledge of applied basic sciences and general surgical principles, respectively, reflecting the formats encountered in the exam Chapters organised by anatomy, physiology, pathology, principles of surgery and general surgery, to help you focus on areas of weakness Provides in-depth answers, with illustrations, to help consolidate knowledge and understand key concepts Gives practical advice on how to approach revision and useful tips to improve exam technique This book provides a detailed guide for MRCOG candidates, including worked examples of specimen questions. Get ahead! is a brand new essential revision series for medical and surgical finals. Each title contains practice questions similar to those you can expect in the real exam. The series stands out in its use of subject summaries that include all the detail you would need from a larger textbook - but we've waived the waffle! If you are looking for a comprehensive, reliable, effective revision aid, then look no further than Get ahead! Features of Get ahead! SURGERY: 100 EMQs for Finals - Covers the entire medical syllabus - 100 EMQ themes over six practice papers - Questions written in a similar style to the Medical Schools Council Assessment Alliance (MSC-AA) bank - Includes harder stems suitable for students aiming for honours - Full explanatory answers including succinct subject summaries - Eponymous details and derivatives for added interest - Also suitable for PLAB and MRCS candidates SBAs and EMQs for the MRCS Part A is an invaluable guide to sitting and passing the examination, which tests the candidates in their knowledge of the basic sciences as applied to surgical practice. Based on the highly successful Insider Medical MRCS Examination Clinical Course, this book facilitates the pathway for a novice clinician to pass this challenging examination. College-approved, systematic and coherent questions for all the main systems are included, providing comprehensive coverage of the surgical curriculum. Answers are provided in brief at the foot of each question page for rapid reference, while full explanations of each appear in a separate section at the end of each chapter. The sections provide insider tips on how to pass the examination and identify mistakes commonly made by many candidates, whilst providing references to the key chapters within Bailey & Love's Short Practice of Surgery. With over 350 SBAs and 50 EMQs, this book will provide helpful pointers for further study throughout training, and is essential reading for those preparing to sit Part A of the MRCS examination. 'SBAs, EMQs & SAQs in MEDICINE' provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for clinicians preparing for their postgraduate exams. This book includes over 200 single best answer questions (SBAs), 400 extended matching questions (EMQs) and 100 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Key features • Over 700 questions on the core medical subjects. • Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. • Overseen by experienced doctors to ensure relevance and accuracy. • The broad medical curriculum is covered in a succinct and consistent style. • Clear and concise answers are provided. • Easy accessible information to facilitate revision on the move. • Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. • The following main specialties are covered: - Cardiology; - Respiratory medicine; - Gastroenterology; - Renal medicine; - Endocrinology; - Neurology; - Haematology; - Rheumatology; - Infectious diseases. Watch out for our other titles in the MedQ4exams series: - Surgery - The Specialties - Practice papers The EMQ element constitutes 60% of the new MRCOG Part 2 examination. Candidates therefore need to be well-versed in approaching this type of question and extensive practice in answering questions is recommended. This new book contains 150 sample EMQs, together with answers that have full detailed explanations and references for further reading – including RCOG resources such as Green Top Guidelines - to enhance knowledge and understanding. The book also contains a section of handy hints and tips on passing the examination to improve candidates' chances of success. EMQs for the MRCOG Part 2 is an invaluable study aid to help pass the EMQ component of the MRCOG Part 2. What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics. Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams. Get ahead! is a brand new essential revision series for medical and surgical finals. Each title contains practice questions similar to those you can expect in the real exam. The series stands out in its use of subject summaries that include all the detail you would need from a larger textbook - but we've waived the waffle! If you are looking for a Examine the latest practices, trends, and developments from the field, PRINCIPLES OF SUPPLY CHAIN MANAGEMENT: A BALANCED APPROACH, 5E guides readers step-by-step through the management of all supply chain activities. Readers review real concerns related to domestic and global supply chains. Comprehensive, one-of-a-kind coverage encompasses important processes in operations, purchasing, logistics, as well as process integration. A balanced approach follows the natural flow through the supply chain. Well-organized chapters demonstrate the practical applications of supply chain management in today's workplace with the help of intriguing SCM Profiles and interesting real business examples. Relevant end-of-chapter questions, problems, and new cases help readers put skills into practice. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. EMQs are an increasingly popular method of assessing how broad a knowledge of medicine an undergraduate student has acquired. They can, however, be difficult to prepare for, and the best way to build understanding and confidence is with practice. EMQs in Clinical Medicine is an invaluable revision book which presents 100 key EMQs covering the main fields of medicine and surgery. The questions and answers are structured to reflect accurately the themes encountered in exam conditions. Each field is accompanied by a revision section which summarises key points and cross-references them to questions for revision purposes. Pharmacology questions are threaded throughout the book where relevant, mirroring the integrated teaching methods common in most medical schools. 'SBAs, EMQs & SAQs in SURGERY' provides a broad range and style of questions, not only for medical students preparing for their final exams, but also for those clinicians preparing for their postgraduate exams. This book includes over 200 single best answer questions (SBAs), 400 extended matching questions (EMQs) and 100 short answer questions (SAQs), giving the reader a wide variety of topics to test their exam knowledge and technique. It is an invaluable educational resource for exam preparation and to help you succeed. Over 700 questions on the core medical subjects. • Compiled by a team of junior doctors with recent final exam and postgraduate specialty exam experience. • Overseen by experienced doctors to ensure relevance and accuracy. • The broad medical curriculum is covered in a succinct and consistent style. • Clear and concise answers are provided. • Easy accessible information to facilitate revision on the move. • Enables the reader to assess their knowledge and help identify gaps in their knowledge to target revision. • The following main specialties are covered: - Upper gastrointestinal surgery; - Lower gastrointestinal surgery; - Vascular surgery; - Breast surgery; - Urology; - Neurosurgery; - Ear, nose and throat surgery; - Trauma & orthopaedics; - Fluids & electrolytes. Watch out for our other titles in the MedQ4exams series: - Medicine - The Specialties - Practice papers Get ahead! is a brand new essential revision series for medical and surgical finals. Each title contains practice questions similar to those you can expect in the real exam. The series stands out in its use of subject summaries that include all the detail you would need from a larger textbook - but we've waived the waffle! If you are looking for a comprehensive, reliable, effective revision aid, then look no further than Get ahead! Features of Get ahead! SPECIALTIES: 250 SBAs for Finals Covers paediatrics, obstetrics, gynaecology, and psychiatry 250 SBA themes over five practice

papers Questions written in a similar style to the Medical Schools Council Assessment Alliance (MSC-AA) bank Includes harder stems suitable for students aiming for honours Full explanatory answers, including succinct subject summaries Eponymous details and derivatives for added interest Also suitable for PLAB candidates Contains more than 300 EMQs covering the dental undergraduate syllabus taught in the UK's dental schools. This book contains questions which are grouped by subject enabling students to focus their revision on their weaker areas. From September 2007 the MRCOG Part 1 Exam has featured EMQs. This text will help trainees to prepare effectively for this portion of the exam. The text covers information on how to answer EMQs as well as sample answers. Crash Course – your effective every-day study companion PLUS the perfect antidote for exam stress! Save time and be assured you have the essential information you need in one place to excel on your course and achieve exam success. This volume includes well over 1000 SBAs and EMQs for Medical Finals, which have been divided into 16 commonly tested areas of medicine, surgery and sub-specialities, allowing for thorough and efficient revision by specialty. Questions have been completely rewritten and updated to reflect current clinical guidelines. Every question includes a clear answer as well as an extended explanation for each answer option, to enable you to quickly understand your strengths and weaknesses and to learn effectively from any mistakes. All information has been thoroughly checked and quality assured by expert Faculty Advisers, so you can be confident it is fully accurate and that questions most closely match current exam formats and topic coverage. This (print) volume also comes with BONUS access to the complete, enhanced eBook – this allows you to read as a 'regular', downloadable eBook, as well as to test yourself via the interactive-quiz function. Whether you need to get out of a fix or aim for a distinction Crash Course is for you! Provides whole exam coverage in one place - saves valuable revision time Quality assured by leading Faculty Advisors - ensures complete accuracy of information Completely updated questions matching the latest exam formats – confirm your understanding and improve exam technique fast Detailed answer explanations, including rationales why incorrect answers are wrong Updated to the latest clinical guidelines Written to help haematology and general medical trainees evaluate their own knowledge, and particularly useful for those preparing for the Part 1 examination of the Royal College of Pathologists. This exam-centered book will also be of use to core medical trainees preparing for the examinations of the Royal College of Physicians and the Royal Australasian College of Physicians and to haematology and general medicine trainees in other countries where methods of examination are similar. The 150 questions are presented in two formats, Single Best Answer and Extended Matching Question, and comes complete with detailed feedback and, when appropriate, relevant references are given for each question so that those who select the wrong answer will understand why another answer is better. Quick reference question book, ideal for examination preparation Includes 50 SBA questions, ideal for the Part 1 and Part 2 MRCP examinations, which although having a general medical slant, are also appropriate for haematology specialist trainees Includes 70 SBA multiple choice questions appropriate for haematology specialist trainees but also useful to core medical trainees Includes 30 EMQs suitable for those taking Part 1 of the FRCPATH examination Questions come complete with fully referenced answers and discussion points This book provides an educational tool for training as well as an ideal way to prepare for examinations and is also of value to those who examine in haematology and haematopathology. EMQs are a popular method of assessing how broad a knowledge of medicine and surgery an undergraduate has acquired. They can, however, be difficult to prepare for, and the best way to build understanding and confidence is with practice. EMQs in Surgery is an invaluable revision book, presenting 100 key EMQs covering the core areas of surgery and associated specialties. The questions and answers are structured to reflect accurately the themes encountered in exam conditions. Each topic is accompanied by a revision section, which summarises key points and cross-references them to other questions for revision purposes. The second edition of EMQs in Surgery has been thoroughly revised and updated to reflect surgical developments, while retaining the clear and comprehensive approach and popular revision boxes of its predecessor. The authors' firsthand experience of EMQ-based examinations, and awareness of the importance of reliable and accurate revision guides, ensure that EMQs in Surgery, alongside its popular companion, EMQs in Clinical Medicine, continues to be the perfect companion to finals preparation. The previous edition of this book for the Membership of the Royal College of General Practitioners examination proved to be hugely popular since publication in 2005. But now the MRCGP exam and Summative Assessment have merged to become the compulsory nMRCGP, and with this has come a change in the format of the written exam. Rather than Paper 1 and Paper 2 there is now a single Applied Knowledge Test consisting of one three hour exam. This new edition reflects all these changes. In addition, updates include revised guidelines and questions on relatively new topics such as practice based commissioning. This book will continue to familiarise you with the types of questions found in the new exam and also covers good exam technique to optimise your results with the knowledge you have. The questions have been divided into papers, so you can practice exam timing, and you can also use the book to test yourself on specific subjects by referring to the topic-based question index. Compared with the limited alternative preparation material for this examination, this book gives far better explanations of answers, and the information is presented more accessibly. It is essential for all examination candidates. Ideal for medical students studying basic sciences, Get ahead! Basic Sciences: 100 EMQs covers anatomy, physiology, pharmacology and biochemistry, including clinical-based themes. Questions are accompanied by explanations to guide further review, making this, along with the companion SBA volume, an essential resource for your basic sciences exams. Fully updated, this new edition of the successful Get ahead! SURGERY 100 EMQs for Finals provides invaluable revision for all medical students preparing for their final examinations. Co-written by Saran Shantikumar, series editor for the Get ahead! series, this book covers the entire syllabus in a clear and comprehensive style, building on the strengths of the first edition to provide reliable and effective revision practice to help achieve success in final exams. The second edition has been completely updated according to current curriculum, and the questions are written in a style similar to the Medical Schools Council Assessment Alliance (MSCAA) bank. Get ahead! SURGERY 100 EMQs for Finals is a helpful resource for medical students preparing for their exams. Fully updated, this new edition of the successful Get ahead! Specialties: 100 EMQs for Finals provides invaluable revision for all medical students preparing for their final examinations. Written by experienced authors, and with Saran Shantikumar as the series editor, this book covers the entire syllabus in a clear and comprehensive style. The second edition provides over 100 integrated exam-based EMQs in a wide range of disciplines together with detailed explanation of the answers. Includes new subjects Obstetrics and Gynaecology, Paediatrics, Emergency Medicine, ENT and Ophthalmology. Contains 10 Self-Assessment EMQ Papers. What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics. Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams. Ideal for medical students studying basic sciences, Get ahead! Basic Sciences: 100 EMQs covers anatomy, physiology, pharmacology and biochemistry, including clinical-based themes. Questions are accompanied by explanations to guide further review, making this, along with the companion SBA volume, an essential resource for your basic sciences exams. Paper 2 of the examination for Membership of the Royal College of General Practitioners is a multiple choice question (MCQ) exam that has changed recently from standard true or false MCQs to more involved and less guessable EMQs (Extended Matching Questions). This book will familiarise you with the types of questions found in the new exam and also covers good exam technique to optimise your results with the knowledge you have. The questions have been divided into papers, so you can practice exam timing, and you can also use the book to test yourself on specific subjects by referring to the topic-based question index. EMQs are a popular method of assessing how broad a knowledge of medicine an undergraduate has acquired. They can, however, be difficult to prepare for, and the best way to build understanding and confidence is with practice. Presenting 100 key EMQs covering the core areas of medicine and surgery, care had been taken by the authors to structure the questions and answers so that they reflect accurately the themes encountered during study and, specifically, in final exams. Each subject covered is accompanied by a revision section which summarises key points and cross references them to other questions for revision purposes. Questions related to pharmacology, an area which many students find particularly challenging, are threaded throughout the book where relevant, mirroring the integrated teaching methods common to most medical schools. The second edition of EMQs in Clinical Medicine has been thoroughly revised and updated to reflect medical developments, while retaining the clear and comprehensive approach and popular revision boxes of its predecessor. The authors' first-hand experience of EMQ-based examinations, and awareness of the importance of reliable and accurate revision guides to medical students, ensure EMQs in Clinical Medicine remains an invaluable resource for all medical students undertaking the clinical part of their training, and an ideal companion during finals preparation. EMQs are an increasingly popular method of assessing how broad a knowledge of medicine an undergraduate student has acquired. They can, however, be difficult to prepare for, and the best way to build understanding and confidence is with practice. EMQs in Clinical Medicine is an invaluable revision book which presents 100 key EMQs covering the main fields of medicine and surgery. The questions and answers are structured to reflect accurately the themes encountered in exam conditions. Each field is accompanied by a revision section which summarises key points and cross-references them to questions for revision purposes. Pharmacology questions are threaded throughout the book where relevant, mirroring the integrated teaching methods common in most medical schools.
