Compilation of Essays and Paragraphs for College and University Students Compilation is that rare English book that can actually help students to write coherently and logically about many topics and subjects. Compilation has been put together and designed as a complete and a comprehensive book for helping young and adult learners in college to write and understand the structure of essays and paragraphs. This book is unique because every essay talks about something that is real in this life. Compilation provides an eclectic approach to the presentation of many current topics and subjects that teachers usually ask students to write about in college. Lucid in aptitude to help others, refreshingly candid about his gift of teaching from his God, Evenson here put together in this book many pieces of his own writings of his previous years in college to motivate other students to write essays without fear, and he inspires native and nonnative English speakers to trust in their capacity to analyze, understand, and write about any subject. But he wants to remind everyone that perfection does not exist in this world. That's why everyone should try to write without fear. Imperfection The imperfection, mistake, and error that are willingly let go in this book characterize its beauty because it's purely a student's writing activities. In addition, the lack of expertise format makes it more appealing to students. Furthermore, it's purely at the level of most students to utilize as a very good model to write their assignments while in college or university. Beauty The beauty of this book is that it can be used as a simple reading book and also a text book. Compilation is a book for college students who have difficulties to write essays and paragraphs. The essays and paragraphs are based on subjects or topics currently discuss in college. The samples of essays and paragraphs will help the learners in the courses: strategies for college success, political theories, speech, English preparatory, English compositions one and two, Bible as literature, theater appreciation, political science MBA and many more. The examples in this book will take the students from the very beginning to a knowledge and control of various essential sentence structures, paragraphs, and

essays of the English language. This book is the result of homework and exams in college and in university. Compilation retains the current basic ordering of structural points that students are encountering daily in college or university and the same frequency of vocabulary as used in college level or academic English. The present book, however, is not difficult for students to get familiar with because the organization and approach are very easy to understand. Compilation makes a serious and sincere effort to develop three language skills such as reading, understanding, and writing. The essays and paragraphs put together with the principles of naturalness. As a matter of fact, this book compiles the writings of Evenson Dufour, the author that learns English from scratch as he is a non-native English speaker. The development of diverse styles of writing and structure goes on at an orderly pace; however, the essays and paragraphs are not slaves to this sequence. They aspire at natural academic English and include some concepts from other languages that probably can be difficult to accept as academic concepts and sometimes anticipate structures to be studied later on. Ninety-eight percent of paragraphs and essays have questions for comprehension of the texts. Teachers, professors, and instructors will find this book amazing to help their students generating ideas. The present book is the effort made by Evenson Dufour whom wants to help every English speaker or English learner to read, understand, and write in English without fear.
