Four Voices Aug 21 2020 "In a remarkable tour de force of research, Shelley Pearen reveals the innermost thoughts of the people who assembled 150 years ago to negotiate the future of Manitoulin Island, the world's largest freshwater island. Working with long forgotten letters, reports and accounts written in English, French and Ojibwe. Pearen brings to life the people and events of 1861-63 through the actual words spoken and written by four key participants: William McDougall, head of the government's Indian Affairs department; Sasso Itawashkash, chief of the Sheshegwaning Anishinaabeg; Jean-Pierre Choné, Jesuit priest at the Holy Cross Roman Catholic Mission in Wikwemikong; and Peter Jacobs, Church of England missionary in Manitowaning, and himself Anishinaabe. For the first time, each of these players is given the stage to explain his own understanding of what actually happened before, during and after the signing of the still-contentious Great Manitoulin Island treaty of 1862. These four voices reveal fascinating personal stories of strengths and frailties."-- from back cover.

Blabac Photo Dec 25 2020 "It's rad what I do." -Mike Blabac
Blabac Photo: The Art of Skateboarding Photography is a stunning chronicle of a youth movement as seen through the lens of Mike Blabac, a man who is as dedicated to his craft as he is to the skateboarding lifestyle that inspired it. For millions of people around the world, skateboarding is more than a mere hobby or a sport—it's a way of life that has shaped everything from fashion and music, to videogames and art. Blabac Photo proves that point with 300 awe-inspiring images that communicate the stories and exploits of some of the most creative athletes to ever step on a skateboard including Eric Koston, Stevie Williams, Colin McKay, Rob Dyrdek, and Danny Way. As skateboarding evolved over time, from a hobby for kids on the Venice boardwalk into a global culture, skate legends were born, records were broken, titans of industry materialized—and Mike Blabac was there to document the history of the movement as it developed before his eyes.

Greater Cincinnati Religious Peacemakers Feb 19 2023
Throughout human history, wars and violence have often been waged in the name of religions and in the name of diverging religious beliefs and belonging. Ironically, though, all religions in their teachings speak of nonviolence and have in common the promotion of peace and justice, namely the respect of human life and dignity, the institution of human rights, the protection of the poor and vulnerable, the freeing of the oppressed, the active elimination of injustice? It seems therefore, that violence and wars would be antithetical to religions; yet they are so frequently used as their justification. Are we then speaking of different "religions"? "Institutional religions," the ones structured by humans and that are brandished to lead violence and wars, become in fact quite foreign to the essence of the religions as they were established by their founders and that they intend to represent; they actually contribute to their destruction. Wanting to reflect on that point, I embarked, a few years ago, on giving voice to local religious individuals, whom I called "Religious Peacemakers," and who, each by living the essential teachings of their particular faith, contributed by their actions to peace and justice. I wanted to prove that their path, irrespective of their original religion, would be similar, and that their diverse faith, instead of separating them, would on the contrary end up uniting them.

Compact Utility Tractors Jan 18 2023 Compact Utility Tractors, or CUTs, are cute little cutters! As farming became more refined so did the needs of tractors. The answer was a smaller, more maneuverable and fuel-efficient tractor with a variety of implements and attachments. With this focus on special needs, attachments became available such as plows, disc harrows, mower decks, cultivators, spreaders, snowblowers, and more. They have become a necessary utility for farmers, orchards, small construction jobs, and landscaping/maintenance for estates, parks and golf courses. At the forefront of this evolution was the Farmall Cub and John Deere Model L. Then came the Japanese invasion; a new kind of tractor by companies such as Yanmar and Kubota. These four-wheel drive machines were rugged and tough and used a variety of hydraulically powered attachments. American companies like John Deere, International Harvester, and Massey Ferguson built their own their own four-wheel versions. Today's compact tractors, such as the Kubota BX series, Massey Ferguson's GC series, and the John Deere 3000, offer an even larger selection of implements for special purposes.
