What am I going to do?! Elena overheard Kokoro in my house and now she wants our help cosplaying! I saw the outfit she's planning to wear and...wow. Why is it so skimpy?! It looks like Kokoro's going to the event to find a potential boyfriend. That's cool and all, but why do I have to come? Well, I guess she does need someone to watch out for her after what happened last time... Now Elena and Kokoro have come up with a plan that'll get both of them used to wearing revealing costumes in public: "Let's go to the pool—all three of us!" That makes sense. Wait...three?! A supplementary publication which provides additional locations of titles included in earlier issues of the catalog. The IEEE ISMAR is the leading international academic conference in the fields of Augmented Reality and Mixed Reality The symposium is organized and supported by the IEEE Computer Society, IEEE VGTC and ACM SIGGRAPH The first ISMAR conference was held in 2002 in Darmstadt, Germany The creation of the conference emerged from the fusion of two former academic events dedicated to this research field the International Symposium on Augmented Reality (ISAR) and the International Symposium on Mixed Reality (ISMR) The purpose of this volume is to broaden scholars' analytical perspective by placing the creative industries in frameworks that compare and contrast them with other kinds of entities, organizations, and social forms that mix creativity and production. In other words, this volume aims to set out an emerging agenda for the study of creativity in the cultural and media industries. Although this work focuses on the media and cultural industries, they are investigated in the context of other groups and organizations connecting forms of creativity with an explicit emphasis on turning ideas into concrete practices and products. The originality of this book lies in (1) presenting a comparative and interdisciplinary perspective that develops a new framework and analytical concepts to understand the notion of creativity in the media and cultural industries, and (2) providing a series of fresh empirically based studies of the process of creativity in fields such as advertising, fashion, animation, and pop culture. This comparative move is taken in order to generate new insights about the particular features of the creative industries and new questions for future analysis. Japan's about to get WRECKED! The bounty on Crash's head has gone public, and Killtopia's deadliest Mech hunters are ready to collect. Leading the charge is King Kaiju; a mechanised corporate mascot of death, who belongs to the evil Kaiju Cola Mega-Corporation. There's just one problem: the world's greatest Wrecker - Stiletto - has gotten to Crash first. Their explosive showdown sends Stiletto's peak celebrity status into a flaming tailspin that threatens to change Japan forever. It's bad enough that Takashi's dad is secretly the ultra-popular 'Queen of VTubers', Kizuke Yai, but his mom's a struggling streamer who just can't seem to gain any popularity at all! Now the poor boy himself has been roped into the VTubing life, and the hapless young lad has to help both of his parents without the other finding out! Join Takashi as he weathers the hellish storm his life has

become, all while navigating the trials and tribulations that come with having parents who are just a little bit too online. This book critically examines the relationship between protecting human rights and building peace in post-violence societies. It explores the conditions that must be present, and strategies that should be adopted, for the former to contribute to the latter. The author argues that human rights can aid peacebuilding efforts by helping victims of past violence to articulate their grievance, and by encouraging the state to respond to and provide them with a meaningful remedy. This usually happens either through a process of adjudication, whereby human rights can offer guidance to the judiciary as to the best way to address such grievances, or through the passing and implementation of human rights laws and policies that seek to promote peace. However, this positive relationship between human rights and peace is both qualified and context specific. Through an interdisciplinary and comparative analysis of four case studies, the book identifies the conditions that can support the effective use of human rights as peacebuilding tools. Developing these, the book recommends a series of strategies that peacebuilders should adopt and rely on. Finally enjoying herself to the fullest, online meme legend and new ace of Live-On Yuki Tanaka now leads a double virtual life—on one hand, her (mostly) wholesome and Awayuki Kokorone persona, and on the other, her booze-loving, girl-worshipping Shuwa-chan personality. But just as she's getting into the swing of things, Live-On, announces its fourth generation: three new girls who promise to push the limits of what this cast of characters is all about. To make matters worse, the first girl Awayuki can call kouhai wastes no time announcing her undying, obsessive love for Live-On's star during her debut! Zany collab streams ensue as the old crew welcomes in the new blood. And during all that chaos, the friendship between Awayuki and her genmate Mashiro Irodori begins to blossom... This book critically assesses the international and European tools and obligations available for States to regulate the far-right. It conducts the analysis through a militant democracy lens. It assesses how freedom of opinion and expression, and freedom of assembly are provided for in international and European law. This eBook provides a comprehensive treatise on modern biomechatronic systems centred around human applications. A particular emphasis is given to exoskeleton designs for assistance and training with advanced interfaces in human-machine interaction. Some of these designs are validated with experimental results which the reader will find very informative as building-blocks for designing such systems. This eBook will be ideally suited to those researching in biomechatronic area with bio-feedback applications or those who are involved in high-end research on man-machine interfaces. This may also serve as a textbook for biomechatronic design at post-graduate level. Live-On is packed full of crazy VTubers, but with Awayuki Kokorone's popularity skyrocketing after her legendary streaming accident, she finally gets the chance to collaborate with her hero, the company's only first-gen member: Hareru Asagiri. And it's not just any collab—Hareru, who normally never agrees to take center stage, is holding a solo concert, and she wants Awayuki to sing a surprise duet with her at the end! But as the snow-themed VTuber, also known as the total drunkard Shuwa-chan, devotes herself to practicing, she also has to tackle her first-ever sponsored stream and the birth of a new so-called "Boss"! Will her sanity hold out until the concert? This is it: Elena and I are dating. But things aren't as smooth as they seem. Kokoro's parents are coming back to Japan sooner than expected. We're no longer going to be roomies! We're both so close to our goal, but how are we going to break this to her mom? She still thinks we're dating and wants to pay for a house so we can live together...forever! Slow down! I guess our only option is to keep up this charade a while longer and go on a fake date. It'll all be over soon...right? No description "This book highlights areas of concern in management of intellectual capital and demonstrates opportunities for the successful use of these tactics"--Provided by publisher. Sufficient dimension reduction is a rapidly developing research field that has wide applications in regression diagnostics, data visualization, machine learning, genomics, image processing, pattern recognition, and medicine, because they are fields that produce large datasets with a large number of variables. Sufficient Dimension Reduction: Methods and Applications with R introduces the basic theories and the main methodologies, provides practical and easy-to-use algorithms and computer codes to implement these methodologies, and surveys the recent advances at the frontiers of this field. Features Provides comprehensive coverage of this emerging research field. Synthesizes a wide variety of dimension reduction methods under a few unifying principles such as projection in Hilbert spaces, kernel mapping, and von Mises expansion. Reflects most recent advances such as nonlinear sufficient dimension reduction, dimension folding for tensorial data, as

well as sufficient dimension reduction for functional data. Includes a set of computer codes written in R that are easily implemented by the readers. Uses real data sets available online to illustrate the usage and power of the described methods. Sufficient dimension reduction has undergone momentous development in recent years, partly due to the increased demands for techniques to process high-dimensional data, a hallmark of our age of Big Data. This book will serve as the perfect entry into the field for the beginning researchers or a handy reference for the advanced ones. The author Bing Li obtained his Ph.D. from the University of Chicago. He is currently a Professor of Statistics at the Pennsylvania State University. His research interests cover sufficient dimension reduction, statistical graphical models, functional data analysis, machine learning, estimating equations and quasilielihood, and robust statistics. He is a fellow of the Institute of Mathematical Statistics and the American Statistical Association. He is an Associate Editor for The Annals of Statistics and the Journal of the American Statistical Association. Still struggling to come to terms with the fact that his father is the epitome of feminine grace, Takashi tries (and fails) to escape the swirling maelstrom of the VTuber life! But the Queen of all VTubers has other plans, plans that involve dragging the hapless young lad into a major gaming tournament! With an island of hopeful online personalities all vying for the top spot, his mom included, can Takashi hope to claim the victory royale?! With friends and family inching ever-closer to uncovering his father's alter-ego, just how much time does he have before the clock ticks down and strikes him where it hurts? Find out all this and more in the VTuber Dad trilogy's stunning finale! Stephen R. Bradley was a Revolutionary War commander and U.S. Senator credited with writing the Twelfth Amendment and advocating a banning of the slave trade. This collection of Bradley's letters and personal papers provides a range of rare and significant material. This previously unpublished correspondence with presidents and the country's founders reflect Bradley's influence and diversity of interests as well as the political and cultural climate of the era. The book features transcriptions of 550 letters, 25 illustrations, and a catalog of Bradley's documents. Will this romantic comedy turn into a thriller? Two warring factions in Kaguya's family are trying to force her personal assistant, Ai, to abandon Kaguya and serve them. While Miyuki tries to save Ai from getting kidnapped, she sends an urgent message to Kaguya to meet her at the place where their relationship began—but Kaguya can't figure out where that is! Meanwhile, as Yu and Tsubame grow closer, Miko grows more jealous, and student council factions clash over whom Yu should date! You're never too old to become a YouTube sensation. -- VIZ Media VTubers: These online entertainers have seen a surge of popularity, capturing the hearts of millions across the internet. But none of them have quite become as much of a household name as Kizuke Yai, the so-called 'Queen of VTubers.' Takashi, an average high-school student, is one of her biggest fans. He always tunes in to her broadcasts, and he might even have a little crush on her. Kizuke Yai is the real deal, an actual cute girl behind the screen, at least according to the rumors... But reality is often disappointing. The Queen of all VTubers is actually Takashi's dad. The hapless youngster stumbles upon his old man's dark secret, and soon finds himself flung into a nightmarish world of virtual song, dance, and endless cringe. Will Takashi succeed in getting his dad to quit, or will he find himself drawn deeper into the booming virtual scene despite this disillusionment? This book constitutes the refereed proceedings of the 5th International Symposium on Security in Computing and Communications, SSCC 2017, held in Manipal, India, in September 2017. The 21 revised full papers presented together with 13 short papers were carefully reviewed and selected from 84 submissions. The papers focus on topics such as cryptosystems, algorithms, primitives; security and privacy in networked systems; system and network security; steganography, visual cryptography, image forensics; applications security. It's bad enough that Takashi's dad is secretly the ultra-popular 'Queen of VTubers', Kizuke Yai, but his mom's a struggling streamer who just can't seem to gain any popularity at all! Now the poor boy himself has been roped into the VTubing life, and the hapless young lad has to help both of his parents without the other finding out! Join Takashi as he weathers the hellish storm his life has become, all while navigating the trials and tribulations that come with having parents who are just a little bit too online. This is the most complete and compelling account of idols and celebrity in Japanese media culture to date. Engaging with the study of media, gender and celebrity, and sensitive to history and the contemporary scene, these interdisciplinary essays cover male and female idols, production and consumption, industrial structures and fan movements. Team Alchemical: A group of Magical Girls who defend their city from fiendish monsters that prowl by night. The adoring idol culture

surrounding these girls, along with the genuine life-or-death struggles they face each night, forces them to grow up quickly and under severe pressure. When tragedy strikes, the team's least confident supporting member, Undine, must step up and learn to fight her own battles.
