*Sartre* Jul 27 2020 This introduction traces the philosophical achievements of a thinker so influential that his death in 1980 brought 50,000 people on to the streets of Paris. The account of Jean-Paul Sartre - writer, journalist and intellectual cornerstone of the 20th century - stretches from his early existential phase to his later Marxist beliefs. With coverage of such major contemporary issues as human liberty, sociobiology, the ethics of work, and the influence of genetics on ideas of individual freedom, Neil Levy uses a range of original material not only to introduce Sartre and his work, but also to highlight his continuing relevance to today's moral and scientific climate. At the heart of his study is a focus on the ethical dimension of Jean-Paul Sartre's philosophical thought: a focus which challenges us to consider more closely the shape of our lives, and the manner in which human beings should treat one another.

*Jean-Paul Sartre* Jun 06 2021 Jean-Paul Sartre: Mind and Body, Word and Deed celebrates Sartre's polyvalence with an examination of Sartrean philosophy, literature, and politics. In four distinct yet related sections, twelve scholars from three continents examine Sartre's thought, writing and action over his long career. "Sartre and the Body" reappraises Sartre's work in dialogue with other philosophers past and present, including Maine de Biran, Maurice Merleau-Ponty and Didier Anzieu. "Sartre and Time" offers a first-hand account by Michel Contat of Sartre and Beauvoir working together, and a "philosophy in practice" analysis by François Noudelmann. "Ideology and Politics" uses Sartrean notions of commitment and engagement to address modern and contemporary politics, including insights into Castro, De Gaulle, Sarkozy and Obama. Finally, an important but neglected episode of Sartre's life—the visit that he and Beauvoir made to Japan in 1966—is narrated with verve and humour by Professor Suzuki Michihiko, who first met Sartre during that visit and remained in touch subsequently. Taken together, these twelve chapters make a strong case for the continued relevance of Sartre today.

**Witness to My Life** Apr 16 2022

**A Commentary on Jean-Paul Sartre's Being and Nothingness** Feb 14 2022 "[A Commentary on Jean-Paul Sartre's Being and Nothingness] represents, I believe, a very important beginning of a deservedly serious effort to make the whole of Being and Nothingness more readily understandable and readable. . . . In his systematic interpretations of Sartre's book, [Catalano] demonstrates a determination to confront many of the most demanding issues and concepts of Being and Nothingness. He does not shrink—as do so many interpreters of Sartre—from such issues as the varied meanings of 'being,' the meaning of 'internal negation' and 'absolute event,' the idiosyncratic senses of transcendence, the meaning of the 'upsurge' in its different contexts, what it means to say that we 'exist our body,' the connotation of such concepts as quality, quantity, potentiality, and instrumentality (in respect to Sartre's world of 'things'), or the origin of negation. . . . Catalano offers what is doubtless one of the most probing, original, and illuminating interpretations of Sartre's crucial concept of nothingness to appear in the Sartrean literature."—Ronald E. Santoni, *International Philosophical Quarterly*

*Sartre For Beginners* Feb 26 2023 Sartre For Beginners is an accessible yet sophisticated introduction to the life and works of the famous French philosopher, Jean Paul Sartre. Sartre was a member of the French underground during WWII, a novelist, a playwright, and a major influence in French political and intellectual life. The book opens with a biographical section, introducing the significant events in the life of the man who coined the term "existentialism." Then it examines Sartre's early philosophical works. Ideas from Sartre's other fictional and dramatic works are discussed, but the greatest part is the presentation of the main concepts from Sartre's Being and Nothingness (1943). These include the topics of consciousness, freedom, responsibility, absurdity, "bad faith," authenticity, and the hellish confrontation with other people. Finally, the book deals with Sartre's modification of his early existentialism to compliment his conversion to a kind of "existential" Marxism. Sartre For Beginners summarizes the work of the most renowned philosopher of the 20th Century.

**The Imaginary** May 25 2020 We may therefore conclude that imagination is not an empirical power added to consciousness but it is the whole of consciousness as it realizes freedom.' Jean Paul Sartre --

**Sartre** May 17 2022 Jean-Paul Sartre (1905-1980) was one of the most influential thinkers of the twentieth century. Regarded as the father of existentialist philosophy, he was also a political critic, moralist, playwright, novelist, and author of biographies and short stories. Thomas R. Flynn provides the first book-length account of Sartre as a philosopher of the imaginary, mapping the intellectual development of his ideas throughout his life, and building a narrative that is not only philosophical but also attentive to the political and literary dimensions of his work. Exploring Sartre's existentialism, politics, ethics, and ontology, this book illuminates the defining ideas of Sartre's oeuvre: the literary and the philosophical, the imaginary and the conceptual, his descriptive phenomenology and his phenomenological concept of intentionality, and his conjunction of ethics and politics with an 'egoless' consciousness. It will appeal to all who are interested in Sartre's philosophy and its relation to his life.

**Jean-Paul Sartre: His Philosophy** May 05 2021

**Truth and Existence** Jul 19 2022 Published posthumously, the text presents Sartre's ontology of truth in terms of freedom, action, and bad faith

*Being and Nothingness* Jun 18 2022 "First published in French in 1943 Jean-Paul Sartre's *L'Être et le Néant* is one of the greatest philosophical works of the twentieth century. In it, Sartre offers nothing less than a brilliant and radical account of the human condition. The English philosopher and novelist Iris Murdoch wrote to a friend of "the excitement - I remember nothing like it since the days of discovering Keats and Shelley and Coleridge". What gives our lives significance, Sartre argues in *Being and Nothingness*, is not pre-established for us by God or nature but is something for which we ourselves are responsible. Combining this with the unsettling view that human existence is characterized by radical freedom and the inescapability of choice, Sartre introduces us to a cast of ideas and characters that are part of philosophical legend: anguish; the 'bad faith' of the memorable waiter in the café; sexual desire; and the 'look' of the other, brought to life by Sartre's famous description of someone looking through a keyhole. Above all, by arguing that we alone create our values and that human relationships are characterized by hopeless conflict, Sartre paints a stark and controversial picture of our moral universe and one that resonates strongly today. This new translation includes a helpful Translator's Introduction, notes on the translation, a comprehensive index and a foreword by Richard Moran."--Book jacket.

**Sartre on Sin** Mar 23 2020 This work argues that Jean-Paul Sartre's early philosophy had a notable inheritance from the Christian doctrine of original sin. With particular attention to being and nothingness, Kirkpatrick connects Sartre to an Augustinian tradition of Christian thought according to which nothingness enters the world with the creation of the human.

**Sartre on Theater** Aug 08 2021

**Sartre and Psychoanalysis** Jan 21 2020 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition. Drawing upon Sartre's work as well as her own experiences as a practicing therapist, she shows that Sartre was a "fellow traveler" who appreciated Freud's psychoanalytic achievements but rebelled against the determinism of his metatheory. The mind, Sartre argued, cannot be

reduced to a collection of drives and structures, nor is it enslaved to its past as Freud's work suggested. Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value. Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs. By comparing Sartre with Freud and influential post-Freudians like Melanie Klein, Otto Kernber, Margaret Mahler, D.W. Winnicott, Heinz Kohut, Harry Stack Sullivan, and Jacques Lacan, she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory. In the process, she adds a new dimension to our understanding of Sartre and his place in twentieth-century philosophy.

**Sartre's Two Ethics** Oct 18 2019 Sartre's moral thinking progressed from an abstract, idealistic ethics of authenticity to a more concrete, realistic, and materialistic morality. Much of Sartre's important unpublished work on ethics - relevant to both his 'first' and his 'second' ethics - has become available to scholars only in the years since his death. Only now has it become possible to give a complete presentation of both the first and the second ethics and to accurately identify their relationship. Sartre's Two Ethics also presents Professor Anderson's original criticisms of Sartre's two ethics, and concludes that the second is a significant advance over the first.

**Conversations with Jean-Paul Sartre** Nov 30 2020 In three interviews, the Marxist historian and scholar Perry Anderson takes Sartre on a wide-ranging tour of his philosophy and politics

*Letters to Sartre* Jan 25 2023 Simone de Beauvoir and Jean-Paul Sartre formed one of the most famous literary couples of the twentieth century. Their relationship took on the quality of legend and served as a model of openness and honesty for countless men and women. Sartre was revered during his lifetime as a paradigm of the modern philosopher and intellectual, but since de Beauvoir's death in 1986, her literary reputation has threatened to eclipse Sartre's. Her work *The Second Sex* is, by any standard, one of the most important and influential books of the twentieth century. When these private and revealing letters were published in France in 1990, they caused a storm of controversy. Here de Beauvoir tells Sartre everything, tracing the extraordinary complications of their triangular love life. These letters reveal de Beauvoir not only as manipulative and dependent, but also as vulnerable, passionate, jealous, and committed. This reissue of a New York Times Notable Book will inspire philosophers, writers, and lovers of literature for decades to come.

*Nausea* Jun 25 2020 In this novel, Antoine Roquentin, an introspective historian, records the disturbing shifts in his perceptions and his struggle to restore meaning to life in a continuing present and without lies. This is Sartre's first published novel and his first extended essay on existential philosophy.

*The Words* Dec 24 2022 The autobiography of a French author and philosopher concentrates on his first ten years and on his great love of reading and writing

*Words* Oct 22 2022 Jean-Paul Sartre was brought up at his grandfather's home. This book recalls his illusion-ridden childhood, lived within the confines of French provincialism in the years before World War I, and considers its effects on his works.

*Jean-Paul Sartre* Aug 28 2020 Presents a collection of critical essays on the works of Jean-Paul Sartre.

**The Imaginary** Nov 18 2019 First published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

*Iron in the Soul* Oct 10 2021 June 1940: this was the summer of defeat. Day by day, hour by hour, this work unfolds what men thought and felt and did as France fell. Men who shrugged, men who ran, men who fought and tragic men like Mathieu, riven with remorse, who must somehow learn to kill.

**The Freud Scenario** Dec 20 2019 In 1958, the US director John Huston asked Jean-Paul Sartre to write a scenario for a film about Sigmund Freud. Huston wanted Sartre to concentrate on the conflict-ridden period of Freud's life when he abandoned hypnosis and invented psychoanalysis. The *Freud Scenario*, discovered in Sartre's papers after his death, is the result—a deft portrait of a man engaged in a personal and intellectual struggle that would prove a turning point in twentieth-century thought. Sartre did not regard this script as a diversion from his larger intellectual project. Freud's preoccupations with female hysteria and the father relationship touched on major themes in his own work, and *Loser Wins*, *The Family Idiot* and *Words*, some of Sartre's most celebrated publications, are all in some way derived from his work for Huston. Written for a Hollywood audience, *The Freud Scenario* demonstrates that, in addition to a towering intellect, Sartre enjoyed a genuine popular touch. Already widely acclaimed in France, *The Freud Scenario* stands as a valuable testament to two of the most influential minds in modern history.

**Papa Sartre** Feb 20 2020 After a failed study mission in France, Abd al-Rahman returns home to Iraq to launch an existentialist movement akin to that of his hero. Convinced that it falls upon him to introduce his country's intellectuals to Sartre's thought, he feels especially qualified by his physical resemblance to the philosopher (except for the crossed eyes) and by his marriage to Germaine, who he claims is the great man's cousin. Meanwhile, his wealth and family prestige guarantee him an idle life spent in drinking, debauchery, and frequenting a well-known nightclub. But is his suicide an act of philosophical despair, or a reaction to his friend's affair with Germaine? A biographer chosen by his presumed friends narrates the story of a somewhat bewildered young man who—like other members of his generation—was searching for a meaning to his life. This parody of the abuses and extravagances of pseudo-philosophers in the Baghdad of the sixties throws into relief the Iraqi intellectual and cultural life of the time and the reversal of fortune of some of Iraq's wealthy and powerful families.

**Search for a Method** Oct 30 2020 From one of the 20th century's most profound philosophers and writers, comes a thought provoking essay that seeks to reconcile Marxism with existentialism. Exploring the complicated relationship the two philosophical schools of thought have with one another, Sartre supposes that the two are in fact compatible and complimentary towards one another, with poignant analysis and reasoning. An important work of modern philosophy, *Search for a Method* has a major influence on the current perceptions of existentialism and Marxism. "This is the most important philosophical work by Sartre to be translated since *Being and Nothingness*."—James Collings, America

**The Age of Reason** Aug 20 2022 Set in volatile Paris of 1938, this novel follows two days in the life of Mathieu Delarue and his circle. Mathieu has so far managed to contain sex and personal freedom in separate compartments, but now he is in trouble, urgently trying to find money to procure a safe abortion for his mistress.

*Sartre's 'Being and Nothingness'* Jul 07 2021 This text presents a concise and accessible introduction Jean-Paul Sartre's existentialist book 'Being and Nothingness'.

*Camus and Sartre* Feb 02 2021 Until now it has been impossible to read the full story of the relationship between Albert Camus and Jean-Paul Sartre. Their dramatic rupture at the height of the Cold War, like that conflict itself, demanded those caught in its wake to take sides rather than to appreciate its tragic complexity. Now, using newly available sources, Ronald Aronson offers the first book-length account of the twentieth century's most famous friendship and its end. Albert Camus and Jean-Paul Sartre first met in 1943, during the German occupation of France. The two became fast friends. Intellectual as well as political allies, they grew famous overnight after Paris was liberated. As playwrights, novelists, philosophers, journalists, and editors, the two seemed to be everywhere and in command of every medium in post-war France. East-West tensions would put a strain on their friendship, however, as they evolved in opposing directions and began to disagree over philosophy, the responsibilities of intellectuals, and what sorts of political changes were necessary or possible. As Camus, then Sartre adopted the mantle of public spokesperson for his side, a historic showdown seemed inevitable. Sartre embraced violence as a path to change and Camus sharply opposed it, leading to a bitter and very public falling out in 1952. They never spoke again, although they continued to disagree, in code, until Camus's death in 1960. In a remarkably nuanced and balanced account, Aronson chronicles this riveting story while demonstrating how Camus and Sartre developed first in connection with and then against each other, each keeping the other in his sights long after their break. Combining biography and intellectual history, philosophical and political passion, Camus and Sartre will fascinate anyone interested in these great writers or the world-historical issues that tore them apart.

**The Imagination** Nov 11 2021 First published in French in 1936, *L'Imagination* is a pivotal early work by Jean-Paul Sartre. This major new translation makes a classic work of philosophy available to a new audience.

**Huis Clos and Other Plays** Apr 23 2020 Sartre's major preoccupation, the struggle for freedom in a world whose orders and systems make any

choices hard, is the key theme that links the three plays in this anthology.

From Socrates to Sartre Mar 03 2021 A challenging new look at the great thinkers whose ideas have shaped our civilization From Socrates to Sartre presents a rousing and readable introduction to the lives, and times of the great philosophers. This thought-provoking book takes us from the inception of Western society in Plato's Athens to today when the commanding power of Marxism has captured one third of the world. T. Z. Lavine, Elton Professor of Philosophy at George Washington University, makes philosophy come alive with astonishing clarity to give us a deeper, more meaningful understanding of ourselves and our times. From Socrates to Sartre discusses Western philosophers in terms of the historical and intellectual environment which influenced them, and it connects their lasting ideas to the public and private choices we face in America today. From Socrates to Sartre formed the basis of from the PBS television series of the same name.

*Sartre Explained* Jan 13 2022 The French philosopher Jean-Paul Sartre (1905–1980) was the major representative of the philosophical movement called "existentialism," and he remains by far the most famous philosopher, worldwide, of the post-World War Two era. This book will provide readers with all the help they will need to find their own way in Sartre's works. Author David Detmer provides a clear, accurate, and accessible guide to Sartre's work, introducing readers to all of his major theories, explaining the ways in which the different strands of his thought are interrelated, and offering an overview of several of his most important works. Sartre was an extraordinarily versatile and prolific writer. His gigantic corpus includes novels, plays, screenplays, short stories, essays on art, literature, and politics, an autobiography, several biographies of other writers, and two long, dense, complicated, systematic works of philosophy (Being and Nothingness and Critique of Dialectical Reason). His treatment of philosophical issues is spread out over a body of writing that many find highly intimidating because of its size, diversity, and complexity. A distinctive feature of this book is that it is comprehensive. The vast majority of books on Sartre, including those that are billed as introductions to his work, are highly selective in their coverage. For example, many of them deal only with his early writings and neglect the massive and difficult Critique of Dialectical Reason, or they address only his philosophical work and ignore his novels and plays (or vice versa). The present book, by contrast, discusses works in all of Sartre's literary genres and from all phases of his career. An introductory chapter provides an overview of Sartre's life and work. The next chapter analyzes several of Sartre's earliest philosophical writings. Each of the next six chapters is devoted to an in-depth examination of a single key book. Two of these chapters are devoted to philosophical works, two to plays, one to a biography, and one to a novel. These chapters also contain some discussion of other writings insofar as these are relevant to the topics under consideration there. A final chapter considers important concepts and theories that are not found in the major works discussed in earlier chapters, briefly introduces other important works of Sartre's, and offers some final thoughts. The book concludes with a short annotated bibliography with suggestions for further reading. Central to all of Sartre's writing was his attempt to describe the salient features of human existence: freedom, responsibility, the emotions, relations with others, work, embodiment, perception, imagination, death, and so forth. In this way he attempted to bring clarity and rigor to the murky realm of the subjective, limiting his focus neither to the purely intellectual side of life (the world of reasoning, or, more broadly, of thinking), nor to those objective features of human life that permit of study from the "outside." Instead, he broadened his focus so as to include the meaning of all facets of human existence. Thus, his work addressed, in a fundamental way, and primarily from the "inside" (where Sartre's skills as a novelist and dramatist served him well) the question of how an individual is related to everything that comprises his or her situation: the physical world, other individuals, complex social collectives, and the cultural world of artifacts and institutions.

*Briefly: Sartre's Existentialism and Humanism* Jan 01 2021 Briefly: Sartre's Existentialism and Humanism is a short summary of Jean-Paul Sartre's Existentialism and Humanism which is designed to assist university and school-leaving students in acquiring knowledge and understanding of this key text in the philosophy of religion. The book closely adheres to Sartre's text, enabling the reader to follow each development in the argument as it occurs. Following the detailed summary which page references the original and includes useful key quotes, is a shorter summary acting as an overview of Existentialism and Humanism, which is intended to aid memory.

**Sartre** Sep 28 2020 A novel introduction to Jean-Paul Sartre's existentialist phenomenology. Draws parallels between Sartre's work and the work of Wittgenstein Stresses continuities rather than conflict between Sartre and Merleau-Ponty, and between Sartre and post-structuralist/post-modernist thinkers, thus corroborating 'new Sartre' readings Exhibits the influence of Gestalt psychology in Sartre's descriptions of the life-world Forms part of the Blackwell Great Minds series, which outlines the views of the great western thinkers and captures the relevance of these figures to the way we think and live today

**Existentialism and Excess: The Life and Times of Jean-Paul Sartre** Mar 15 2022 Jean-Paul Sartre is an undisputed giant of twentieth-century philosophy. His intellectual writings popularizing existentialism combined with his creative and artistic flair have made him a legend of French thought. His tumultuous personal life - so inextricably bound up with his philosophical thinking - is a fascinating tale of love and lust, drug abuse, high profile fallings-out and political and cultural rebellion. This substantial and meticulously researched biography is accessible, fast-paced, often amusing and at times deeply moving. Existentialism and Excess covers all the main events of Sartre's remarkable seventy-five-year life from his early years as a precocious brat devouring his grandfather's library, through his time as a brilliant student in Paris, his wilderness years as a provincial teacher-writer experimenting with mescaline, his World War II adventures as a POW and member of the resistance, his post-war politicization, his immense amphetamine fueled feats of writing productivity, his harem of women, his many travels and his final decline into blindness and old age. Along the way there are countless intriguing anecdotes, some amusing, some tragic, some controversial: his loathing of crustaceans and his belief that he was being pursued by a giant lobster, his escape from a POW camp, the bombing of his apartment, his influence on the May 1968 uprising and his many love affairs. Cox deftly moves from these episodes to discussing his intellectual development, his famous feuds with Aron, Camus, and Merleau-Ponty, his encounters with other giant figures of his day: Roosevelt, Hemingway, Heidegger, John Huston, Mao, Castro, Che Guevara, Khrushchev and Tito, and, above all, his long, complex and creative relationship with Simone de Beauvoir. Existentialism and Excess also gives serious consideration to Sartre's ideas and many philosophical works, novels, stories, plays and biographies, revealing their intimate connection with his personal life. Cox has written an entertaining, thought-provoking and compulsive book, much like the man himself.

Existentialism and Humanism Dec 12 2021 "Over the past sixty years the writings of Jean-Paul Sartre have probably been more influential in the West than those of any other philosopher and literary figure. In his theoretical writings, Sartre laid the foundation for an original doctrine of Existentialism. His concern, however, was to relate his theory to human response and the practical demands of living. To achieve this, he carried his philosophical concepts into his novels and plays, and there subjected them to the test of imagined experience. His uniqueness lies in the success with which he demonstrated the utility of Existentialist doctrine while creating, at the same time, works of the highest literary merit. Thus Sartre became the populariser of his own literary thought. Originally delivered as a lecture in Paris in 1945, "Existentialism and Humanism" is Jean-Paul Sartre's seminal defence of Existentialism as a doctrine true to Humanism, as opposed to a purely nihilistic creed, and a plan for its practical application to everyday human life. This exploration of one of the central tenets of his philosophical thought has become the essential introduction to his work, and a fundamental text for all students of philosophy"--page 4 of cover.

*Jean-Paul Sartre* Sep 09 2021 A critical figure in twentieth-century literature and philosophy, Jean-Paul Sartre changed the course of critical thought, and claimed a new, important role for the intellectual. Christine Daigle sets Sartre's thought in context, and considers a number of key ideas in detail, charting their impact and continuing influence, including: Sartre's theories of consciousness, being and freedom as outlined in Being and Nothingness and other texts the ethics of authenticity and absolute responsibility concrete relations, sexual relationships and gender difference, focusing on the significance of the alienating look of the Other the social and political role of the author the legacy of Sartre's theories and their relationship to structuralism and philosophy of mind. Introducing both literary and philosophical texts by Sartre, this volume makes Sartre's ideas newly accessible to students of literary and cultural studies as well as to students of continental philosophy and French.

*Sartre: A Guide for the Perplexed* Sep 21 2022 Provides an introduction to the work of Sartre, the twentieth-century thinker and writer. This book identifies four themes that run through his oeuvre, consciousness, freedom, bad faith and authenticity, and explores them, building up an overview of

Sartre's philosophy in its entirety. It covers the core concepts that recur throughout his work.

**Troubled Sleep** Apr 04 2021 Sartre portrays the emotional and intellectual impact of the fall of France on one group of citizens

*The Philosophy of Jean-Paul Sartre* Nov 23 2022 This unique selection presents the essential elements of Sartre's lifework -- organized systematically and made available in one volume for the first time in any language.
